# YOUR NR. 1 IN CONTEMPORARY JAPANESE TABLEWARE

We design, craft and distribute top quality oriental tableware for households and businesses worldwide. Our established brand Tokyo Design Studio is inspired by Japanese culture and praised for its refined contemporary designs and high-quality standards.

With design teams located in both The Netherlands and Japan we aim to create a unique and constantly evolving signature. Respecting centuries of porcelain and pottery heritage, we constantly look for unexpected perspectives that help us create the tableware of today and tomorrow.

Our products are authentic by nature. Predominantly made in Japan by artisanal methods perfected over 400 years. Our pad-printed products are baked twice, then decorated one color at a time, glazed, and baked again. Throughout the process a meticulous quality control is applied, making sure each product is of the highest quality.

# HANA BLUE

Hana Blue in Japanese tableware holds deep symbolic meaning, representing the connection between nature, beauty, and the fleeting moments of life. The word hana, meaning flower, is central to this concept, as floral designs are used to reflect the changing seasons. Each bloom carries its own story, symbolizing the passage of time and the beauty found in every moment; cherry blossoms capture the essence of spring's renewal, while chrysanthemums reminds us of the transition into autumn. This thoughtful integration of nature's cycles creates tableware that not only serves its practical purpose but also connects to the rhythm of life and the seasons.

The grasses are often depicted with thin, curved lines, creating an elegant and organic appearance. The design may incorporate additional elements such as leaves, flowers, or subtle geometric patterns. It is a testament to the rich tradition of Japanese pottery and the enduring appeal of nature-inspired motifs in Japanese culture.

# SEIGAIHA

In a rich indigo on crisp white, the Seigaiha collection features beautifully detailed waves in a striking pattern. They are the traditional lucky motif in Japanese symbolism, representative of the boundless ocean, the flow of energy and good fortune. Seigaiha pieces are made from high quality Japanese porcelain with an elegant matte finish.

# AISAI SEIGAIHA

The robust brush stroke patterns on vivid white porcelain of the Aisai Seigaiha collection makes an eye-catching addition to your tabletop. While both the motif and the basic shapes of the bowls are traditional Japanese, they add a surprising statement to many different styles. Whether you're going for a dramatic, modern or classic look, the Aisai Seigaiha collection is the perfect star on your dining table.

# JAPONISM BLUE & BLACK

Serve with a story. These graceful creatures are an ode to Asian myths, suggesting wisdom and supernatural powers. Drawn on pure porcelain, this tableware is a must-have for dishing out a good traditional ramen or noodles. And after dinner, please don't leave these porcelain pearls behind closed doors. They are true accessories themselves and add a certain finishing touch to all interiors.

# FLORA JAPONICA

The Flora Japonica collection is inspired by Dutch botanists bringing back new plant species from Japan, centuries ago. It is all about exploring and admiring Japanese flora. National treasures like the fine-leaved maple, the heart-shaped katsura, pretty white pine trees and one of the oldest trees on earth, the ginkgo biloba, have found a place in our collection. Amidst these wonderful trees you'll find another Japanese phenomenon: the dancing cranes. Do you share our love for Japanese nature?

With Tokyo Design Studio we celebrate cross-cultural collaborations of the past and add a new chapter by giving a unique European twist to traditional Japanese pattern and tableware design.

Our Flora Japonica collection consists of porcelain plates, bowls and cups in various sizes. Each product is dishwasher-proof and safe to use in a microwave.

# ARAHAKE

When ceramics or pottery are described as "Arahake," it means that the surface has intentionally been left with a rough or coarse texture. This technique can be achieved by brushing the surface with a coarse brush, leaving deliberate brush marks and a tactile, uneven feel. The roughness adds an aesthetic to the tableware, giving it a more rustic or handcrafted appearance.

# RAMEN BOWLS

Japanese ramen bowls, or “ramen donburi,” are specially designed dishes used for serving ramen. These bowls are typically deep and wide, allowing ample space for the noodles, broth, and various toppings. Made from materials like ceramic, porcelain, or melamine, ramen bowls are crafted to retain heat, keeping the soup warm throughout the meal. The shape and size of the bowl are carefully considered, providing a perfect balance between aesthetics and functionality.

## A still life composition featuring a white peony flower, a small cup of pink juice with a citrus slice, a bowl of yellow juice, and various decorative elements like lemons and a purple flower on a light blue background.

The Lily, or "yuri" in Japanese, holds deep cultural and symbolic significance in Japan. It represents purity, innocence, and renewal, making it a popular choice for tableware designs. The Lily Flower design often incorporates subtle and muted colors, reflecting the serene aesthetic of traditional Japanese art. Soft pastel hues like pale pink, white, and light green are frequently used to depict the delicate petals and leaves of the lilies. Each piece is carefully crafted to be both functional and visually appealing, suitable for everyday use or special occasions.

# CAST IRON TEA KETTLE

Originally created in Ancient China, the cast iron teapot has become a widely-known traditional Japanese artefact as more people are now drinking loose teas. The designs of the teapots include different symbols which have a range of meanings, such as joy, strength, happiness and blessings. The traditional name for a teapot is tetsubin and the way tea is brewed is called kyūsu. Over time, the designs have evolved, with the style or design of the teapot reflecting the class or desired class of the owner, therefore becoming a status symbol in society.

# CHOPSTICKS

Chopsticks were developed about 5,000 years ago in China. By 500 AD, chopsticks had spread to Japan, Vietnam and Korea. Once you've got your technique nailed down, though, you might want to consider making it a regular habit: some people claim that chopstick use can improve memory-which will come in handy for remembering all those rules of etiquette. We have developed a wide range of chopsticks also available in beautiful designed boxes which makes our chopsticks an excellent addition to your cutlery drawer or a nice give away.

# Product maintenance

## PORCELAIN

Most of our porcelain is suitable for use in (industrial) dishwashers, microwaves and ovens. Gold decorated items are not suitable for microwave use, due to aggressive rinse and temperatures in dishwashers, golden decorated products are recommend to wash by hand. It is important that you follow the guidelines issued by dishwasher manufacturers. Excessive rinse temperatures and overdosing of washing agents may damage the glaze. Most damage occurs during loading and unloading a dishwasher. Preferably use special dishwasher baskets (racks) that prevent contact with other porcelain items during the wash cycle and at loading/unloading.

When removing food residues beforehand, use a plastic scraper to prevent damage to the glaze. Never use metal objects or cutlery for this.

## STONE & EARTHENWARE

Most of our Stone & Earthenware is suitable for use in (industrial) dishwashers and microwaves, oven use is not recommend as there is a chance of breakage due to temperature shock. It is important that you follow the guidelines issued by dishwasher manufacturers. Excessive rinse temperatures and overdosing of washing agents may damage the glaze. Most damage occurs during loading and unloading a dishwasher. Preferably use special dishwasher baskets (racks) that prevent contact with other porcelain items during the wash cycle and at loading/unloading.

When removing food residues beforehand, use a plastic scraper to prevent damage to the glaze. Never use metal objects or cutlery for this.

## WOOD & BAMBOO

Wooden items are not suited to use in an (industrial) dishwasher. The surface of the product can be maintained by regularly rubbing it with vegetable oil.

Wooden items must be washed in warm soapy water and then dried directly.

Wood & Bamboo is a natural product and will show wear and tear after a period of use.

## GLASS

All glasses may be washed in an (industrial) dishwasher. We advise using dishwasher baskets to minimise breakages during the washing cycle and to use a non-caustic cleaning agent when washing the glasses. This is because caustic cleaning agents can damage the surface of the glasses and turn them dull. Always wash new glasses first before initial use. Never wash glasses at temperatures above 60 degrees. Higher temperatures can cause dirt to become baked onto the glass.

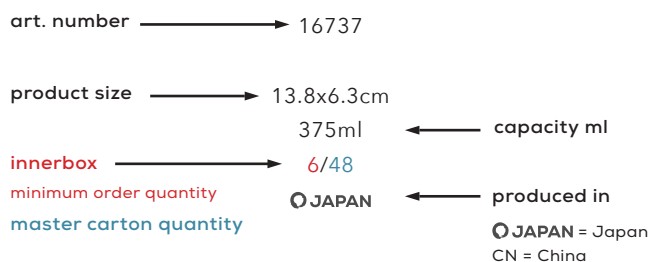

Never pour cold liquids into a hot glass as this can cause the glass to shatter. It is also advisable to gently prime a glass with hot water before pouring hot liquid into it.

## MELAMINE

Melamine may be washed in an (industrial) dishwasher. Do not use any scouring agents, bleaches, scouring pads or metal objects to clean melamine, as this will leave scratches on the melamine. Melamine is not suitable for use in the oven or microwave. Melamine products are suitable for use in a bain-marie or chafing dish. When using melamine in chafing dishes, it is important that you pour sufficient water into the container.

Our melamine products are inspected and tested and approved food safe. Usage temperatures between -20 and 70 degrees.

## HOW TO READ THE PRODUCT INFORMATION

## VOLUME

We measure the capacity of our products by filling them with water until the edge of the product.
