ALADDIN pagliuzze

IT Manico con pagliuzze in ottone dorate. I manici sono realizzati tramite la lavorazione manuale di lastre in acrilico, questo fa sì che ogni manico sia unico per numero e densità di pagliuzze. Eventuali differenze tra un manico e l'altro sono segno della sua esclusività e non sono da considerarsi un difetto di fabbricazione.

EN Handle with gold plated brass flakes. The handles are made through the manual manufacturing of acrylic sheets. This makes every handle unique thanks to its number and concentration of particles. Any difference among handles is the symbol of their uniqueness and must not be considered a manufacturing defect.

FR Manche avec paillettes de laiton doré. Les manches sont fabriqués par le biais d'un matériel spécifique à base d'acrylique. Cette spécificité permet aux manches d'être unique grâce à la forte concentration de particules d'acrylique de haute qualité. Toutes différences sur un manche reflètent l'aspect unique de celui-ci et ne doit en aucun cas être considéré comme une marque de défaut.

DE Griff mit vergoldeten Messing Flittern. Die Griffe werden durch die manuelle Bearbeitung von Acryl-Platten gefertigt. Dadurch ist jeder Griff einzigartig, dank der Anzahl und Konzentration von Partikeln. Unterschiede bei den Griffen sind Merkmal der Einzigartigkeit und können nicht als Herstellungsfehler betrachtet werden.

TRATTORIA

IT Trattoria è la nuova linea per la tavola e la cucina di Bugatti che ripropone, con un linguaggio naturale e contemporaneo, il calore e le consuetudini dell'ambiente domestico e l'allegria del tipico locale della tradizione italiana. Gli elementi si combinano tra loro mediante un sistema modulare, per inventare sempre nuove e uniche configurazioni e arredare la tavola in modo raffinato e personale. La linea è realizzata in legno di frassino massello, nelle versioni sbiancato e tabacco, che esalta le venature del materiale e le forme morbide e dinamiche dei prodotti.

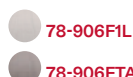

EN Trattoria is the new table and kitchen range by Bugatti which re-interprets, in a natural and contemporary style, the warmth and familiarity of the domestic environment and the joy of a traditional Italian inn. The articles combine through a modular system, to invent ever new and unique configurations and to furnish the table in a personal and elegant manner. The range is made in solid ash wood, whitewashed or tobacco coloured, which enhances the grains of the material and the soft dynamic shapes of the products.

FR Trattoria est la nouvelle ligne pour la table et pour la cuisine de Bugatti qui évoque, dans un langage naturel et contemporain, l'ambiance chaleureuse et familiale de la vie domestique avec la gaieté typique de cette auberge de la tradition italienne. Les éléments se combinent les uns avec les autres à travers un système modulaire, pour inventer des configurations toujours nouvelles et uniques et dresser la table d'une façon raffinée et personnelle. La ligne est réalisée en bois de frêne massif, blanchi ou tabac, qui exalte les veines du matériau et les formes douces et dynamiques des produits.

DE Trattoria ist die neue Produktlinie aus Holz für Tisch und Küche von Bugatti. Mit ihrer natürlichen und modernen Formensprache wird die Tradition eines typischen italienischen Speiselokals weitergeführt und der Brauch des geselligen Zusammenseins kultiviert. Die Form der einzelnen Elemente der Serie läßt immer wieder neue Kombinationsmöglichkeiten zu und den Tisch raffiniert und individuell decken. Trattoria ist aus massiver Esche gefertigt, gebleicht oder tabakfarben. Die Farbtöne sind durch die Maserung des Holzes charakterisiert und heben die weichen, dynamischen Formen hervor.

EDEN schiaccianoci

Design Uff. Tecnico Bugatti

IT EDEN è lo schiaccianoci a forma di mela, perfetto come regalo o bomboniera, è un oggetto che arreda cucina e casa con stile. Vite realizzata in zama, è disponibile nella versione cromata e placcata oro 24 carati. Il corpo è in legno di faggio naturale, questo rende ogni pezzo unico e ci racconta la sua storia.

EN EDEN is the nutcracker with apple shape, perfect as a gift, it also decorates your home with style. The screw is made of zamak and it is available in the chromed or 24carats gold plated versions. The apple is made of natural ash wood: this makes every piece unique and tells us its history.

FR EDEN est le casse-noix en forme de pomme, parfait comme cadeau, il décore également votre intérieur avec style. La vis est en zamak et elle est disponible en version chromée ou plaquée or 24 carats. La pomme est en bois de frêne naturel: cela rend chaque pièce unique et nous raconte son histoire.

DE EDEN ist der Nussknacker in Apfelform, perfekt als Geschenk, aber auch zur stilvollen Dekoration Ihres Zuhauses. Die Schraube besteht aus Zamak und ist in den Ausführungen verchromt oder 24 Karat vergoldet erhältlich. Der Apfel besteht aus natürlichem Eschenholz: Dies macht jedes Stück zu einem Unikat und erzählt uns seine Geschichte.

INFORMATION

CURA E MANUTENZIONE

POSATE IN ACCIAIO INOX CON FINITURA LUCIDA, SABBIA, VINTAGE, SATIN

Prima di utilizzare le posate per la prima volta e dopo ogni uso, lavarle con detersivi idonei, evitando detersivi alcalini, contenenti alcool o profumi, prodotti a base di cloro e candeggianti.

Dopo ogni lavaggio, risciacquare bene e asciugare con cura. Riporre in un ambiente asciutto. Non usare spugne o panni abrasivi e pagliette metalliche.

Un prolungato contatto delle posate in acciaio inox con sale, aceto, uova, salsa di pomodoro, frutti acidosi, detersivi o sali minerali dell'acqua del rubinetto possono causare macchie, ossidazione e micro-fori. Non lasciare quindi le posate in ammollo e rimuovere immediatamente qualsiasi residuo.

Le posate in acciaio inox 18/10 sono garantite per il lavaggio in lavastoviglie: assicurarsi che il tipo di lavaggio preveda una perfetta asciugatura e brillantatura ed in caso contrario, provvedere manualmente. Risciacquare abbondantemente.

Togliere ed asciugare le posate immediatamente dopo la fine del ciclo di lavaggio. Non lasciare mai le posate in ambienti umidi perché possono causare macchie che richiedono una ripulitura.

Le lame dei coltelli sono prodotte in acciaio AISI420 13/C, un materiale che assicura un'affilatura efficace e duratura, ma rende il materiale più sensibile agli attacchi corrosivi. Se si presentano macchie sulle lame, pulirle con un prodotto specifico per l'acciaio.

Lavare i coltelli immediatamente dopo l'uso e separatamente da qualsiasi altro strumento metallico. Consigliamo il lavaggio con la lama rivolta verso il basso così da evitare la possibilità di tagli accidentali. Asciugare immediatamente e riporre in luogo asciutto.

POSATE IN ACCIAIO PVD CON FINITURA LUCIDA, SABBIA, VINTAGE, SATIN

Le posate con copertura in PVD (Physical Vapour Deposition) vengono sottoposte ad un processo di deposizione di particelle di titanio su acciaio inox che dona una particolare colorazione e rende le superfici resistenti a graffi e corrosione. Due piccoli segni sulla costa delle posate in PVD sono dovuti al processo di produzione e non sono da ritenersi un difetto.

Dopo ogni lavaggio, risciacquare bene e asciugare con cura. Riporre in un ambiente asciutto. Non usare spugne o panni abrasivi e pagliette metalliche.

POSATERIA ARGENTATA

Per la posateria argentata utilizzare le stesse accortezze indicate per le posate acciaio inox. L'argento, a contatto con alcune sostanze presenti negli alimenti o in presenza dell'aria, è portato a ossidarsi e quindi assumere una colorazione scura. E' un fenomeno assolutamente naturale e non danneggia il rivestimento d'argento: ne altera solo l'aspetto tramite la presenza di colorazione scura non uniforme. Tramite l'utilizzo di prodotti specifici per la pulitura dell'argento, le posate torneranno a splendere.

Consigliamo di non mescolare nello stesso ciclo di lavaggio posate in acciaio e posate argentate.

POSATE CON MANICO IN ACRILICO/ABS/POM E ADERENZA IN ACCIAIO INOX

Prima di utilizzare le posate per la prima volta e dopo ogni uso, lavarle con detersivi idonei, evitando detersivi alcalini, contenenti alcool o profumi, prodotti a base di cloro e candeggianti.

Risciacquare abbondantemente. Togliere ed asciugare le posate immediatamente dopo la fine del ciclo di lavaggio.

Non lasciare mai le posate in ambienti umidi perché possono causare macchie che richiedono una ripulitura.

Le lame dei coltelli sono prodotte in acciaio AISI420 13/C, un materiale che assicura un'affilatura efficace e duratura, ma rende il materiale più sensibile agli attacchi corrosivi. Se si presentano macchie sulle lame, pulirle con un prodotto specifico per l'acciaio.

Lavare i coltelli immediatamente dopo l'uso e separatamente da qualsiasi altro strumento metallico. Consigliamo il lavaggio con la lama rivolta verso il basso così da evitare la possibilità di tagli accidentali. Asciugare immediatamente e riporre in luogo asciutto.

POSATE CON MANICO IN ACRILICO/ABS/POM E ADERENZA IN ACCIAIO INOX CON FINITURA PVD

Le posate con copertura in PVD (Physical Vapour Deposition) vengono sottoposte ad un processo di deposizione di particelle di titanio su acciaio inox che dona una particolare colorazione e rende le superfici esistenti a graffi e corrosione.

Dopo ogni lavaggio, risciacquare bene e asciugare con cura. Riporre in un ambiente asciutto. Non usare spugne o panni abrasivi e pagliette metalliche.

Un prolungato contatto delle posate in acciaio inox con sale, aceto, uova, salsa di pomodoro, frutti acidosi, detersivi o sali minerali dell'acqua del rubinetto possono causare macchie, ossidazione e micro-fori. Non lasciare quindi le posate in ammollo e rimuovere immediatamente qualsiasi residuo.

Le posate in acciaio inox 18/10 con copertura PVD con manico in acrilico e ghiera lucida/ABS/POM sono garantite per il lavaggio in lavastoviglie: assicurarsi che il tipo di lavaggio preveda una perfetta asciugatura e brillantatura ed in caso contrario, provvedere manualmente. Risciacquare abbondantemente. Togliere ed asciugare le posate immediatamente dopo la fine del ciclo di lavaggio. Non lasciare mai le posate in ambienti umidi perché possono causare macchie che richiedono una ripulitura.

CARE & MAINTENANCE

STAINLESS STEEL CUTLERY

WITH SHINING, SANBLASTED, VINTAGE, SATIN FINISHING

Before the first use and after each use of the cutlery, wash it with hot water and neutral detergent, avoiding alkaline detergents that contain alcohol or perfume, synthetic detergents containing chlorine or strong alkali cleaners.

After each washing, rinse and carefully dry. Store in a dry room. Do not use stainless sponges or abrasive cleaners.

Prolonged contact of the cutlery with salt, vinegar, egg, tomato sauce, acid fruits, detergents or some of the mineral salts in tap water can cause pitting and staining. Never leave stainless steel cutlery in damp conditions and always remove any residual of food.

18/10 stainless steel cutlery is dishwasher safe: check that at the end of the washing cycle the cutlery is perfectly dry, if not, dry thoroughly by hand. Rinse. Remove and hand-dry the cutlery as soon as the wash cycle has finished.

Avoid to use a rinse-and-hold cycle and to leave cutlery in a damp atmosphere because they can get stained or damaged.

Knives' blades are made of AISI420 13/C steel, a material that assures efficient and long lasting cutting edges, but is less resistant to corrosion. In case of stains, clean them with a stainless steel polish. Wash the knives immediately after each use and separately from other metal products. We suggest to wash knives with the blades facing down to avoid the possibility of accidental cuts. Dry immediately and store in a dry space.

PVD CUTLERY

WITH SHINING, SANBLASTED, VINTAGE, SATIN FINISHING

Cutlery with PVD (Physical Vapour Deposition) coating undergo a special process of depositing titanium particles on stainless steel that gives a particular color and make the surfaces resistant to scratches and corrosion. Two small marks on the edge of PVD cutlery are due to the manufacturing process and are not to be considered a defect.

Before the first use and after each use of the cutlery, wash it with hot water and neutral detergent, avoiding alkaline detergents that contain alcohol or perfume, synthetic detergents containing chlorine or strong alkali cleaners.

SILVER CUTLERY

Handle silverware as indicated for stainless steel cutlery. Silver, Silver, in contact with some food or exposed to air can sulphurate and becomes dark. This is a completely natural process and do not affect the silver coating: it only becomes dark in a more or less uniform way. Thanks to good silver polishing products, the cutlery will shine again. Don't mix silver plated and stainless steel items in the same cycle.

STAINLESS STEEL CUTLERY WITH ACRYLIC/ABS/POM HANDLE

Before the first use and after each use of the cutlery, wash it with hot water and neutral detergent, avoiding alkaline detergents that contain alcohol or perfume, synthetic detergents containing chlorine or strong alkali cleaners.

After each washing, rinse and carefully dry. Store in a dry room. Do not use stainless sponges or abrasive cleaners.

18/10 stainless steel cutlery with acrylic/ABS/POM handles with shining ring is dishwasher safe: check that at the end of the washing cycle the cutlery is perfectly dry, if not, dry thoroughly by hand. Rinse. Remove and hand-dry the cutlery as soon as the wash cycle has finished. Avoid to use a rinse-and-hold cycle and to leave cutlery in a damp atmosphere because they can get stained or damaged.
