SHOKU – GOOD TASTE FOR LIFE

Shoku is a Japanese word meaning food or eating and is used in the context of meals and food culture. Eating is not only about satisfying hunger, but also about enjoyment and community around the meal.

A shared meal becomes a free space where both eating and socialising can take place, and where you can enjoy the simple pleasure of good food and good company.

The Shoku range complements both the food and the table setting with its simple aesthetics and muted, timeless colours that perfectly match the japandi style. The pieces in the range are designed with clean, organic lines that, together with the glossy and matte silky look of the glaze, lend an authentic naturalness to the table setting.

Like an artist's canvas, Shoku is the foundation that brings out the flavour and beauty of the food, combining the five basic tastes to make the meal inviting and memorable.

THE BOOK OF
SHOKU

NORDIC MOODS
THE KINFOLK TABLE

A photograph of a dining area with a light-colored wooden table and matching chairs. The table is set with dark plates, glasses of water, a small bowl, and a candle in a holder. A green plant is visible in the background. The text 'SHOKU x JAPANDI' is overlaid on the left side of the image.

SHOKU

x JAPANDI

SHOKU

The Shoku range supports the japandi style with its organic shapes and simple lines.

Combine it with elements from nature and materials such as rice paper, oak, tiles, linen and cotton and create your own balance in interior design with a warm, harmonious look.

JAPANDI

Japandi is a design style that combines Japanese minimalism with Scandinavian functionality and aesthetics.

It emphasises calm, order and a sense of Zen in a functional, peaceful interior. What's also interesting about the style is its warm embrace of imperfection. The Japandi style reminds us that beauty doesn't require perfection, which is beautifully reflected in the organic and natural forms of the Shoku range.

SOFT BEIGE

Soft beige is a warm and inviting colour with a soft muted tone that exudes calm and balance. The subtle and natural expression of the colour reflects a focus on japandi minimalism and functionality, making it ideal for creating a sense of comfort and cohesion around the dining table.

PURE GREEN

Pure green is a soft and soothing colour. The soft shade of green brings renewal and naturalness to the table setting and plays beautifully with the harmonious and earthy aesthetic of Shoku design. Inspired by nature's own green pantry, the subtle beauty of Pure green enhances the overall experience of a tasty and well-prepared meal.

WARM BROWN

Warm brown is a beautiful earthy colour with warm undertones that evoke a sense of comfort and security. The soft shade of brown provides a stylish and sophisticated backdrop for all types of savoury dishes and blends perfectly with the aesthetic principles of calm and simplicity of the japandi style.

COMPLETE THE TABLE SETTING WITH HARMONY AND PURPOSE

To complement the SHOKU dinnerware series, we have introduced a small, organically shaped vase and a pair of candleholders in soft beige – crafted from the same durable stoneware as the tableware itself. These thoughtfully designed accessories bring unity and balance to the table, without overshadowing conversation or connection.

Their modest height ensures an uninterrupted line of sight, making them ideal for social gatherings where eye contact and dialogue matter most. When not gracing the dining table, the vase and candleholders add quiet elegance to any corner of the home – whether placed on a windowsill, shelf, or bedside table.

Designed with intention. Made for everyday moments. Inspired by the natural flow of life.

A BEAUTIFUL BEGINNING – THE SHOKU BRUNCH SET

Ease into the day with a sense of calm and balance. The SHOKU Brunch Set is thoughtfully curated to offer the perfect introduction to the SHOKU universe – featuring four mugs, four bowls, and four plates in our signature stoneware.

Inspired by Japanese simplicity and Scandinavian harmony, this starter pack is ideal for small households, fresh beginnings, or anyone embracing the joy of mindful dining. Whether it's a quiet morning coffee or a shared weekend brunch, SHOKU brings beauty and function together.

Because a beautiful start to the day sets the tone – and with SHOKU, you're already on your way.

FURNITURE

They say your home reveals *who you are*

We create furniture in clean-lined,
cosy designs and each piece tells its own story.
We love wood. It's part of our Nordic DNA.
It lends warmth and glow to any home,
in the city or in the countryside,
newly built or built decades ago.

Bodo

Oak – *naturally oiled*

The BODO series includes a desk, a stool, a high stool, a coffee table, a bench and a mirror crafted from oiled oak, featuring rounded contours and stylish details. Oak wood is a strong and long-lasting material that develops a patina over time. The warm glow melds beautifully with most home décors, adding cosiness and charm.

A coat of vegetable oil is applied to each BODO product that makes it more resistant to the negative effects of daily wear and tear. The oil penetrates the wood and forms a surface barrier that protects against liquid and abrasion, but do not allow water to sit on your BODO product. Wipe the surface dry with a hard-wrung cloth. The products are made from FSC™-certified oak (FSC-C166612).

- Naturally oiled oak
- Functional and strong
- Aesthetic design
- Knock down packed

Bodo

Oak – *naturally oiled*

This elegant oak wood series is ideal for anywhere in your home. The seven products can be styled together as a group, or used individually where needed. The well-considered details create an aesthetic whole.

34478

Hang it your way

Mirror with oiled oak frame that can be hung horizontally or vertically on the wall. The product's wood component is FSC™-certified oak (FSC-C166612). The design beautifully complements the rest of the Bodo series, ensuring a harmonious aesthetic in the home. Available in two sizes.

Bodo

Simple and stylish design

The elegant round coffee table stands on three legs and is crafted from the most beautiful oak. This simple and stylish design fits into any home, and the table can be styled in a multitude of ways. The product is made from FSC™-certified oak (FSC-C166612).

MIRRORS

Functional & decorative *element*

A mirror can be used as a functional and decorative element of the décor. It helps to open up the space and make it seem bigger and brighter.

Organic shapes

The mirrors stand out with their organic shapes that challenge traditional sharp lines and create an interesting visual expression. The VERA series brings aesthetics into the room by combining soft lines with a modern design. The mirrors in the range are not only a practical addition to the home, but also an artistic statement that catches the eye and adds depth and character to the interior.

Vasto

The VASTO mirrors have a black iron frame and are perfect for the bedroom or hallway. The back of the mirrors features hinges that allow you to hang them on the wall.

The large oval VASTO mirror is suitable for free-standing or hanging on a wall. At the back of the mirror is a stand that supports the mirror when positioned on the floor. The stand can be folded up and removed if the mirror is hung on the wall instead.

On the back of the small oval VASTO mirror you will find 4 hinges so that the mirror can hang both horizontally and vertically on the wall.

The oblong VASTO mirror with a rounded top and straight base is wider and stands stable on the floor. A removable base is included so that the mirror can stand freely on the floor.

Vasto

Mirror, mirror ...

The round VARDO mirror comes in four different sizes (100, 80, 60 and 50 cm) with a black frame to bring flair to the home décor. The 60 cm VARDO mirror also comes in off-white, and the 80 cm mirror is also available in brass.

The mirror has more than a practical function in the hallway or bathroom. It is also beautiful and decorative in the living room or bedroom, for example.

INTERIOR

Interior

Intérieur

The word “interior” comes from the French word “intérieur”, derived from the Latin word “interior”, which means “inner”. Interior décor helps create the inner soul of the home.

Nord

Design meets nature

A natural focal point in your home

NORD is a charming series consisting of a wall shelf, a multi-functional holder and hurricanes in two different sizes. The pieces in the series have an organic design inspired by the soft shapes of nature, designed to bring a natural aesthetic into any space. NORD emphasises the Nordic interior design style through a harmonious combination of functionality, naturalness and minimalism.

The wall shelf offers elegant storage space, while the holder provides practical organisation for everything from mugs to keys and jewellery. The beautiful hurricanes help create a cosy atmosphere with candlelight.

Stoneware is made from clay and fired at a high temperature. Nature is the inspiration for our stoneware vases and planters, and this is made evident in decorations reminiscent of leaves, poppy seed pods, and other such motifs.

The vases are hand-crafted by skilled and experienced artisans. They are shaped on a turntable, and the decorations are made by hand and applied. A unique reactive glaze is then applied to the vases, which are fired in a kiln. The reactive glaze behaves differently from product to product, so the glaze and colour of each piece will vary.

Hand-crafted stoneware

Our vases have a unique look because they are hand-crafted by highly experienced people who are passionate about their craft.

Eik

Handmade with reactive glaze

The vases are inspired by the Nordic style that values simplicity, functionality and minimalism. The cream-coloured glaze complements the natural light and creates a sense of calm and harmony.

Stren

A work of art

The inspiration for this vase came from the forest floor in the Nordic forests, where mushrooms are growing during the autumn. Each individual vase is hand-modelled with reactive glaze and therefore utterly unique.

Elha

Handmade and
one-of-a-kind

Gorgeous sculptural stoneware vases that look as impressive empty as they do filled with a large bouquet of flowers. The vases are covered with decorative shapes in the form of poppy seed pods, which are made and applied by hand. The new colour Honey adds a warm and pleasant glow that complements the natural beauty of the vase.

Aug

Inspired by nature

Nature is a great source of inspiration for us, and we use it in many different ways in our designs. The vase decorations and colours are inspired by tree leaves, beach stones and other impressions found in nature.

Aug

Dras

ELV

A simple design aesthetic

ELV is a series of beautiful and rugged stoneware products in off-white with small black dots. The simple design language and natural materials give the vases and candlesticks a discreet and aesthetic appearance. Combine them or mix them with vases and candlesticks in other materials, colours and sizes. The vase is glazed inside and is therefore waterproof.

The BUBBLE, OTEA, HVILS and CUNEO series include vases featuring several layers of glass. They are designed by Villa Collection Denmark's design team and showcase all that is made possible when working with multiple layers of glass. The vases are handcrafted and hand-blown, so each one is unique.

Glass

Alluring like the sea

Glass is an amazing material that allows endless experimentation with shapes and colours. It is one of our favourite materials, which is why it features prominently in our range. Glass is made from melting sand into a liquid. Next, a variety of colours and other ingredients can be added to the mixture, depending on the desired result. Glass is alluring, just like the sea or a stunning blue sky.

Glassblowing is an ancient craft that is still practiced to this day. The glassblowing technique is what makes each glass product unique. A hollow iron tube is dipped into molten glass, and air is blown through the tube to create a form to be shaped.

We adore the artisanal look of the glass products made with this technique. Every glass product in our collection is made with love for this splendid material.

Hvils

HVILS is a series of mouth-blown glass vases made in Europe by skilled glass artisans. With their wide bases and narrower, tubular tops, the vases invite the flowers to spread out, revealing them in their full glory.

The series consists of two stunning vases in triple layers of coloured glass: clear, white and honey. Three more vases in ultra-clear glass with the same decorative shape have now been added to the series: Two with a smooth surface in different sizes, and one with ridges.

In addition to the vases, the series has been enhanced with pillar candles inspired by the same design aesthetic. The vases and pillar candles complement each other beautifully. The candles are produced in Europe.

Leer

A unique character

The beautiful planter is handmade in Portugal. It is made from stoneware and fired at 1150 degrees. The reactive glaze gives each planter a unique character. Let your plants come into their own in this stunning planter, which is available in an array of sizes and colours.

BASKETS & LANTERNS

Natural materials *indoors & outdoors*

Rattan, water hyacinth and bamboo are quality materials that can be made into decorative planters, baskets and lanterns.

Thum

Inspired by the beach

The THUM plant pots are made of stone, sand and polyresin. The pots are reminiscent of beautiful sandy beaches, where the sun shines, the sea sprays and the breeze blows. The soft, organic shapes are inspired by pebbles, rounded by the waves of the sea.

The pots are suitable for both indoor and outdoor use. When using outdoors, a hole needs to be drilled at the bottom of the pot for draining water. The pots can withstand down to -5°C.

The plant pot provides the opportunity to create a green and vibrant environment in the home or outside on the patio or balcony.

Rattan indoors and out

Make nature a bigger part of the décor with charming planters crafted from durable rattan. Green house-plants and colourful flowers create more cosiness and life.

The planters are lined with a plastic bag and are therefore suitable for both indoor and outdoor use. If they are placed outside, you can make water drainage holes in the bag.

There are 300 different rattan plants in many different sizes. Rattan is a natural product and as such it is not water-repellent, so if the planters are placed outdoors they will develop patina and take on a grey finish over time, depending on the weather.

Vida & Vilda

Robust and decorative planters in two sizes. They are heavy, sturdy and solid which makes them suitable for large plants. Make nature a bigger part of the décor with charming plant baskets in rattan.

Suitable for both indoor and outdoor use. The planters are lined with a plastic bag. If they are placed outside, you can make water drainage holes in the bag.

Toerv

Natural storage

The basket set in water hyacinth is a stylish and practical storage solution for towels, toilet rolls, throw blankets, knitting, toys and much more. The baskets feature woven patterns that contrast beautifully with each other.

Water hyacinth is a plant that grows in tropical waters such as ponds, lakes, and ditches. It is harvested at regular intervals to ensure that it does not take over the waterways, which require sunlight to maintain their biodiversity.

Amas & Asra

A harmonious silhouette

The lanterns feature a practical glass insert at the bottom to house a LED light or a stearin candle. The lanterns have a beautiful and harmonious silhouette, and a soft light is diffused through the fine bamboo to create a cosy, calm and warm atmosphere. The lanterns are not weatherproof and should only be used indoors, such as inside the home or in a greenhouse.

Ancona

Stylish cosiness

Make your summer evenings special with lanterns to light up your way. Available in two different sizes, the Ancona lanterns are made of galvanized steel with an elegant black coating that fits perfectly into any garden or terrace. They also have a borosilicate glass insert with a lid that protects the flame from the wind and creates a warm and welcoming atmosphere.

With their practical handles, the lanterns are easy to move around and place exactly where you want them. Design: Steffensen & Würtz.

Alia

Natural beauty and inspiring light

A soft and inviting light emanates from our handmade bamboo lanterns that light up the garden, the terrace or the front door. The natural beauty of bamboo comes alive and brings a sense of true tranquillity to your outdoor space. The lanterns are made of FSC®-certified bamboo, and each lantern has a practical handle and a strong glass insert that protects the flame and ensures that the light creates a cosy atmosphere. The green paint used on the lanterns is water-based, thereby providing good durability.

LIGHTING

Creating a special atmosphere

Lighting is a must in every room of the home, and that includes outdoor spaces. The right lighting creates a special atmosphere and gives the home character.

Vilja

Sophisticated aesthetics

The stylish VILJA table lamps are available with either a polished brass shade and black marble base, a polished chrome shade and white marble base or a deep black metal shade and a base in natural-coloured travertine.

Choose the sleek sophistication of the marble base, with its beautiful hues and elegant veining for a smooth, contemporary look, or the warm, natural charm of the travertine base, with its earthy tones and textured finish for a softer, more

organic expression. Both materials are natural stones, created by the forces of nature over millions of years, offering a unique touch of luxury and style to your home.

The lamps have three different light settings that can be easily customised at the touch of a button. With their minimalist and clean lines, VILJA table lamps are ideal as part of the decor in the living room, on the bedside table or as an elegant touch in the home office.

Vilma

Real craftsmanship in rattan

Create a cosy atmosphere in any room with this wireless LED lamp which features a lamp shade made of natural-coloured rattan and a base in solid oak. The design matches the Nordic décor style perfectly, known for its simplicity, functionality and natural elements. The lamp is for indoor use and offers three different brightness settings, allowing you to create just the right mood. Toggle between brightness settings with a simple press of the button. The lamp comes with a 1.2 m USB-C cable for charging. A full charge, which takes about 7 hours, provides between 8 and 16 hours of light, depending on the brightness setting selected. The lamp is easy to clean with a damp cloth.

A beautiful statement

These gorgeous rattan lamps are the perfect match for any cool, Scandinavian decor with their beautiful, soft and warm light. The large floor model even features a dual light source with light bulbs situated at both the top and bottom of the base – a beautiful, sculptural element for the Nordic home.

Vilma

Soft Light

Vinka

Rattan

Villa Collection Denmark uses only Indonesian natural rattan, which is renowned as a durable but lightweight material. Rattan is one of the world's fastest-growing natural materials for making furniture and interiors and is surpassed only by bamboo. And this makes it an ideal material. Rattan is easy to work with and can be steamed and bent in a wide variety of ways.

The age of the rattan plant is what creates the different appearances of the products. The stalks

from young trees are lighter and thinner, while the material becomes darker and thicker the older the rattan plant is.

VINKA and WERNA are sculptural table lamps and floor lamps in natural rattan. They are designed to be beautiful even without use of the light source. A perfect match for any cool, Scandinavian décor with their beautiful, soft and warm light.

LED lamps

Late summer evenings ought to be enjoyed with wonderful music or a good audiobook.

LED lamps with speakers from the HAV series are perfect for that purpose.

Hav

Perfect for parties and cosy nights

HAV is a cosy Scandinavian-designed lantern speaker for outdoor and indoor use, easy to move around and bring along. The HAV lantern speaker creates the perfect atmosphere for a garden party or a cosy BBQ evening, and contributes to a beautiful lounge atmosphere inside. Simply connect the speaker to your smartphone to start the music.

IP44 approved and suitable for outdoor use.

HAV is designed in cooperation with Design Studio Swift Creative, Aarhus.

Recharged by the sun

The HAV lounge lamp is also available with solar. The solar cells charge the lamp during the day so it's ready to light up when darkness falls. If the sun hasn't been out, the lamp can easily be charged with the included USB-C cable.

The HAV family

The HAV family includes LED lamps with speakers and lounge lamps in a smaller size. With their practical size, the small HAV lamps can easily be taken to the beach or on a picnic.

Maane

These three lovely solar LED lamps will light up your garden or balcony on dark evenings. The lamps turn on automatically when darkness falls, providing approx. 6 hours of illumination after 8 hours of full charging in daylight.

DINING

Stylish dinnerware

*makes the dining
experience even better*

Eating is about more than just the flavour of the food. We also “eat with our eyes”, so visual presentation plays a big role in our enjoyment.

Elstra

Delicately
different

ELSTRA designs:

A table in light blue

Invite beauty and durability into your home with the Elstra stoneware dinnerware set. Now you can also enjoy Elstra in an attractive light blue colour which adds a light and airy touch to your table setting. Elstra has a lovely reactive glaze with four exquisite patterns that make each piece a work of art in itself. It is important to note that Elstra is delivered in assorted pieces and it is therefore not possible to guarantee specific patterns.

The dinnerware set includes elegant espresso cups and mugs, plates and bowls in several sizes, a serving dish and a lovely teapot with filter. In addition to its aesthetic qualities, the stoneware is designed to be dishwasher and microwave safe, making it an ideal choice for modern living.

Vaest

An exquisite
ceramic
collection

Raw nostalgia

VAEST is an exquisite ceramic collection with a beautiful and functional style that takes us back to the 1960s. The spikes and matte glaze give the series elements a raw expression – an exciting contrast to the Scandinavian style characterised by natural colours and natural materials.

The series is handmade in Portugal, where the products are cast in a mould and hand-polished by skilled artisans, after which they are dried and fired for the first time in a 1050 degree Celsius kiln. The products are then glazed and fired again at 1000 degrees Celsius.

Iris

Unique colour harmony

The handmade stoneware mugs are a unique addition to any ceramic collection. The IRIS mug's reactive glaze gives a unique play of colours and a distinctive look to each mug. The soft and inviting colours add a warm and cosy feeling, making the mugs ideal for everyday use. The colours complement each other and are aesthetically pleasing.

Hela

Unique wood pattern

Mugs and espresso cups with a unique wood pattern that blends beautifully into the Scandinavian design aesthetic. Sit back and enjoy a quiet moment with a good cup of coffee or tea.

WELL-BEING

Lovely spa atmosphere *at home*

Using home décor in luxurious materials
can create a lovely spa atmosphere
in the bathroom. Our products are created with
self-indulgence and everyday luxury in mind.

Live candles & wonderful scents

Villa Collection Denmark has a wide and varied range of scented candles and fragrance oils for “hygge”, atmosphere and a cosy mood in your room. There are fabulous fragrances to please everyone, and we’re constantly adding wonderful new combinations.

Our range includes gorgeous, high-quality luxury candles in both glass and ceramic jars, with and without lids.

Our scented candles made with coconut wax and rapeseed wax have become very popular over the last few years. They contain natural, biodegradable

coconut wax and rapeseed wax, and they burn for longer and are cleaner compared with the certified palm oil wax traditionally used in our scented candles. We’re working on replacing palm oil with rapeseed wax in our entire range of scented candles.

The fragrance oil is solvent-free and contains pure extracts and essential oils. All fragrance oils are supplied with eight scented sticks that will keep your home smelling beautiful for up to eight months.

Look forward to brighter times ahead!

Good advice on live candles

- Cut the wick down to 1 cm before you light the candle and keep it at a length of 1 cm while the candle is lit thereby avoiding smoke.
- Never leave a burning candle unattended or in the company of children or pets.
- Always cut off the high edges thus preventing a flickering flame that can result in soot.
- Always place groups of candles with a minimum of 10 cm between the wicks to avoid overheating which leads to melting or running candles.
- Never place your candles where they will be exposed to draught or on a radiator as this can result in soot and a running candle.
- Always place your candle on a fireproof base and away from inflammable items keep the top of the candle free from used matches, as these may act as a wick.
- Always make sure that the candle is put out before leaving it and put the candle out with an extinguisher to avoid soot.

Villa Collection Denmark relaunches its scented candle collection featuring mild and pleasant fragrances

All our candles are now made in Europe, which makes perfect sense as we use natural, biodegradable European rapeseed wax, the lovely unique ceramics with reactive glaze finish are handmade in Portugal, and the jars for the scented candles in crystallized stearin originate from Italy. We look forward to sharing all our exciting new products with you.

60–80% of the energy used in the production of the new scented candles is sourced from wind turbine and/or solar thermal energy. All wicks are made from OEKO-TEX® standard 100-certified cotton, and the new 100% stearin crown and pillar candles bear the Nordic Swan Ecolabel. The Nordic Swan Ecolabel guarantees to consumers that the product meets strict environmental requirements, that human health is safeguarded and high quality is assured.

Cosy *lighting*

Trae

Hvils

Beautiful colours

The slender HVILS pillar candles with base are made from 90% paraffin and 10% stearin, and the cylindrical TRAE pillar candles are made from 100% Nordic Swan Ecolabelled stearin.

The candles are available in an array of sizes and colours and are made in Europe.

Kvist

Effortless beauty

Villa Collection Denmark's collection of artificial branches lasts all year round - without the need for water. Create beautiful, lifelike combinations that look great in your home day after day. The branches can be combined or used individually for a more minimalist look.

Hydrangea

As beautiful as nature itself

Let it be summer all year round and enjoy lasting floral beauty without the need for watering or upkeep. This stunningly lifelike hydrangea looks lovely on its own or combined with other stems in an elegant bouquet that lasts for years.

Contemporary colours

Multicoloured home decor accessories to transform your home

Even if you've chosen a Nordic look for your interior design, you can easily follow the major colour trend we'll be seeing over the next few years. Villa Styles has been developed to complement the Nordic look, and you'll of course encounter contemporary colours, which bring us all hope, smiles and joy in our everyday life.

Nordic earth tones and natural materials such as clay, sand, glass and rattan are an integral part of Villa Collection Denmark's DNA. Villa Styles' colours are also derived from the Nordic universe: the green forests,

the yellow rapeseed fields, the blue sea, the blue sky, sunsets with a stunning pink sky and finally amber, the autumnal colour of the forest.

Even when you decorate your home with multiple new and colourful Villa Styles products, you are creating harmony and cohesion across products and colours. The collection includes home decor accessories that match each other beautifully. The optimistic colours invite creativity and play and bring the home to life.

A photograph of five decorative candles in wavy holders, arranged on a light-colored wooden table. The candles are blue, green, and yellow, with some having textured or multi-colored bodies. The holders are made of glass or metal, with wavy, sculptural designs. The background is a blurred outdoor setting with a wooden building and greenery.

Handmade glass candlesticks

The colourful glass candlesticks from Villa Styles are crafted by hand by skilled artisans, giving each candlestick its own unique character. The candlesticks have a base, a spiral shaped stem and a holder that fits a crowntop candle with a 2.2 cm diameter. Combine several glass candlesticks from Villa Styles in various heights and colours to create a colourful centrepiece display on the dining table, sideboard or windowsill.

The candle holders can also be combined with the new handmade tealight holders in familiar Villa Styles colours ranging from a deep green to a soothing blue, warm amber and soft pink. The light plays with the reflection through the coloured glass, spreading a vibrant and dancing light in the room. By arranging the candlesticks both individually and in groups, you can create your own personalised lighting universe that invites you to cosiness and relaxation.

Alone or all together

BOLIG MAGASINET
VINDER
DESIGN
FAVORITTER
2024
BO BEDRE

A personalised candlestick

The elegant aluminium candlestick from Villa Styles fits a crowntop candle with a 2.2 cm diameter and is available in amber, green, blue and pink. The candlestick can be used alone, or several can be put together to create a personal candlestick display. Up to four candlesticks can be stack, making this candlestick perfect to use as an Advent candle at Christmas time.

It makes us very proud that the beautiful aluminium candlestick is among the winners of Bolig Magasinet and BO BEDRE's Design Favoritter 2024 in the Candlestick category, as it is a competition that celebrates innovative and aesthetic design in interior design.

Designed in collaboration with Design Studio Swift Creative, Aarhus.

Nordic calm

with cream-coloured glaze

Colourful glass art

The design is simple, yet catchy. A narrow bottom that expands upwards towards a wide and open top. The difference lies in the details with the soft, rounded edges creating an inviting look and the fine colours melting together beautifully. Both bowl and vase are in mouth-blown coloured glass, and you can feel the quality in the heaviness of the thick glass – it is solid and durable. The bowl is a decorative element in itself but can also be used as a fruit bowl or a creative flower centrepiece etc.

On the vase, flowers create an impressive effect. Villa Styles introduces artificial orchids and hydrangeas in multiple colours, which are an excellent choice for adding natural beauty and elegance – without the maintenance required by living plants.

MACHINES PLAY A ROLE IN THE PRODUCTION OF THE ARTIFICIAL FLOWERS, BUT THE DETAILS AND REALISTIC LOOK OF THE FINE FLOWERS STILL REQUIRE CONSIDERABLE HANDWORK.

Atmospheric lighting for both indoors and outdoors

This wireless LED lamp for indoor and outdoor use is easy to move around, which is ideal when light is fading on the decking, for a bedside table, or anywhere else in the home. Press and hold the button to increase or decrease the brightness to get the lighting that suits the mood. The base of the lamp is in aluminium with a silicone on/off button and dimmer, and the shade is made from PP plastic. The lamp has an IP44 rating so there's no need to worry if you forget it on the patio overnight.

The LED lamp is also available in Sand, a warm and natural hue, drawing inspiration from natural elements with soft, neutral colors. It is ideal for creating a relaxed atmosphere where the lamp is not only functional but also contributes to the overall look of the room.

an aesthetic
light

THE LED LAMP IS AVAILABLE IN ROSE, GREEN, AMBER AND SAND
FITTING WITH ANY DÉCOR WITH ITS MODERN APPEARANCE.

A feast for the eyes

Stylish stoneware dinnerware from Portugal

The stoneware dinnerware set from Villa Styles is made in Portugal by ceramists with extensive know-how and experience. Each piece is shaped and polished by hand, creating beautiful and unique stoneware dinnerware with a smooth, fine finish. After this, the reactive glaze is applied and the stoneware is fired in the kiln at 1150 degrees. The reactive glaze makes each product unique. The appearance depends on the shape, kiln temperature and placement inside the kiln.

All glazes are created from scratch by our Portuguese manufacturer. The carefully-selected glazes feature life-affirming and exclusive colours that appeal to the eye. The stoneware range can be mixed and matched to create a personalised dinnerware presentation.

The wide range of colours offers something for every taste, from vivid tones to more muted shades.

The factory recycles the water used in production, and the heat generated by the ceramic kilns is fed into the rooms where the ceramics are dried, so that all gas energy is recycled. The factory makes its own clay and recycles all residues by mixing them with new clay and using the mixture for new products so that nothing is wasted.

The latest addition to the series presents an eye-catching colour combination of purple and orange, creating a dynamic and modern look.

Mix & match con cept

- Beautiful and unique products
- A colour concept where everything can be mixed and matched
- OEKO-TEX® standard 100 certified pillows and throws
- Amazing ceramic tableware from Europe
- Danish designed candleholders made in aluminium

For chilly

TWO NEW VARIANTS OF OUR SOFT AND COSY TROWS ARE NOW AVAILABLE IN BEAUTIFUL COLOUR COMBINATIONS THAT ADD WARMTH AND GLOW TO ANY ROOM.

Brandsite

Get to know Villa Collection Denmark online

On Villa Collection Denmark’s brand site you can always find inspiration and presentation of collections and selected products in a cosy Scandinavian environment. Our online universe smoothly guides you to the latest catalogues, contacts in sales, PR and customer service and access to an image bank, an e-Shop and a Danish webshop.

Explore and visit us at:
www.villacollectiondenmark.design

Packaging

Simple yet beautiful packaging

Villa Collection Denmark is representative of the modern Scandinavian mood with a cool international look, and our products are a stylish and simple addition to any modern interior.

All Villa Collection Denmark products come in a brown box with a white label.

The Villa Styles label comes in four different colours that match the product.

E-Shop

DK Du kan som kunde hos Villa Collection Denmark bestille dine varer 24/7. Den brugervenlige E-shop guider dig gennem hele kollektionen fordelt på enten kategori, serie, materiale eller farve, hvilket gør den nem og tilgængelig, uanset om du skal bruge en hel kategori eller blot søger en bestemt artikel.

Såfremt du har brug for login til E-shoppen, står vores kundeservice klar til at hjælpe dig via mail: info@fh-as.dk.

Shoppen er kun til brug for forhandlere, ikke privat personer.

EN As a customer at Villa Collection Denmark you can order 24/7. The user-friendly e-Shop guides you through the entire collection by either category, series, material or color – making it easy and accessible, whether you need an entire category or just looking for a specific item.

If you need login to the e-Shop please contact export@fh-as.dk.

The e-Shop is not open to private consumers.

FR En tant que client Villa Collection Danemark, vous pouvez commander 7/7j et 24/24h. Le e-shop simple et facile d'utilisation vous guidera à travers l'ensemble de sa collection. Vous pourrez effectuer des recherches par catégorie, série, matériel ou couleur facilitant ainsi l'accès aux articles que vous aurez sélectionnés.

Pour vous connecter au e-shop, contacter export@fh-as.dk.

Le e-shop n'est pas accessible aux particuliers.

NL Als klant van Villa Collection Denmark kun je 24/7 bestellen! De gebruikersvriendelijke E-shop handleiding leidt je door de complete collectie met filters op onder meer categorie, serie, materiaal of kleur die het makkelijker en toegankelijker maken wanneer je bijvoorbeeld op zoek bent naar een specifiek artikel of bepaalde categorie.

Wanneer je je login nodig bent stuur dan a.u.b. even een email naar: export@fh-as.dk.

De E-shop is niet toegankelijk voor particulieren.

IT Come cliente di Villa Collection Denmark è possibile ordinare 24 ore su 24, 7 giorni su 7. L'e-Shop di facile utilizzo vi guiderà attraverso l'intera collezione per categoria, serie, materiale o colore, rendendo il tutto facile e accessibile, sia che abbiate bisogno di un'intera categoria o che stiate cercando un articolo nello specifico.

Nel caso in cui abbiate bisogno di effettuare il login all'e-Shop, vi chiediamo di contattare export@fh-as.dk.

L'e-Shop non è aperto ai privati.

DE Du kannst als Kunde/Kundin bei Villa Collection Denmark deine Bestellung rund um die Uhr machen. Unser freundliche E-Shop leitet Ihnen durch die komplette Kollektion verteilt auf Kategorie, Serie, Material, oder Farbe. Es macht die Seite einfach und zugänglich egal ob du nach eine bestimmte Kategorie oder nur ein Artikel suchst.

Brauchst du ein Login für die E-Shop, steht unser Kundendienst bereit hier: kundenservice@fh-gmbh.de

Der Onlineshop ist nur für Händler und nicht für die Endverbraucher zugänglich.
