silikomart®
MADE IN ITALY

Manifesto

We shape your emotions.

The passion for the art of pastry-making is in our DNA.

Innovation is the way we think about the world.

Made in Italy is our belief.

Being a big family is our strength. For over 20 years.

We design avant-garde pastry-making moulds that we hope to push towards new frontiers.

Furthermore, we enter uncharted territories and move the limits of what can be done to create new ways of baking.

Silikomart supports the pioneers of this art. We transform the creative genius of some of the greatest pastry chefs of our time into extraordinary and revolutionary works of art.

Italian design and production: a unique combination and a guarantee of quality and excellence throughout the world.

A passionate team of people here to inspire your creativity and shape it.

Diamo forma alle tue emozioni.

La passione per l'arte della pasticceria è il nostro DNA.

L'innovazione è il nostro modo di pensare al mondo.

Il Made in Italy è il nostro credo.

L'essere una grande famiglia la nostra forza. Da più di 20 anni.

Disegniamo forme d'avanguardia per la pasticceria che vogliamo spingere verso nuove frontiere.

Esploriamo nuovi territori, spostiamo i limiti del realizzabile per creare le nuove forme del gusto.

Siamo al fianco dei pionieri di quest'arte. Trasformiamo il genio creativo dei più grandi maestri pasticceri contemporanei in opere d'arte straordinarie e rivoluzionarie.

Design italiano e produzione italiana: un connubio unico, garanzia di qualità ed eccellenza in tutto il mondo.

Un team appassionato di persone per ispirare la tua creatività e darle forma.

INNOVATIVE MATERIALS - MATERIALI INNOVATIVI

T PLUS

The new **TPlus** technology by Silikomart has been used to develop moulds made of a special oven-ready material.
*La nuova tecnologia **TPlus** di Silikomart per realizzare stampi fatti di un materiale totalmente fornabile.*

- + High quality material resistant to high temperatures (up to 356°F).

Materiale di altissima qualità resistente ad alte temperature (fino a 180°C).

- + Easy unmoulding thanks to the non-stick characteristics of the material.

Facile sformatura grazie alle proprietà antiaderenti del materiale.

- + Dishwasher safe, the mould remains unaltered.

Lavabile in lavastoviglie, lo stampo rimane inalterato.

- + Oven-ready material for a 100% accurate shape in the result.

Può essere usato direttamente in forno, per una riuscita della forma precisa al 100%.

- + Impact resistant, even from accidental drops.

Resistente agli urti, anche nel caso di cadute accidentali.

- + Long-lasting shape.

Mantiene perfettamente la forma nel tempo.

STYLE

La superiorità di **Tritan**TM rispetto alle altre materie plastiche è stata chiaramente dimostrata e la qualità dei nostri stampi garantisce un ottimo grado di stampaggio ed un'eccellente purezza del materiale. I prodotti realizzati con **Tritan**TM hanno un'estrema durezza, infatti hanno una resistenza agli urti di gran lunga maggiore rispetto ad altre plastiche e vetro, resistendo straordinariamente agli urti, ai graffi e alle ammaccature, mantenendo queste proprietà anche dopo anni di utilizzo e migliaia di lavaggi in lavastoviglie. **Tritan**TM non contiene BPA, BPS (bisfenolo S) e altri bisfenoli, è questa peculiarità a rendere **Tritan**TM un materiale adatto al contatto con gli alimenti. Gli stampi Chocado sono realizzati con il materiale innovativo **Tritan**TM.

*The superiority of **Tritan**TM over other plastics has been clearly demonstrated and the quality of our moulds guarantees an excellent degree of moulding and material purity. Products made with **Tritan**TM have extreme durability, in fact, they have a greater impact resistance than other plastics and glass, impressively resisting to bumps, scratches and dents, retaining these properties even after years of use and thousands of dishwasher washes. **Tritan**TM does not contain BPA, BPS (bisphenol S) or other bisphenols, this fact ensures absolute reliability of these **Tritan**TM products for food contact. Chocado moulds are made with the innovative material **Tritan**TM.*

INSERT MOULDS

Insert Project

As the shapes specialist, Silikomart embraced the need to create multiple layers of different tastes and textures in order to create professional-like cakes and entremets.

Silikomart, come specialista delle forme, ha abbracciato la necessità di creare dessert stratificati caratterizzati da gusti e texture diversi per creare torte ed entremets come quelli dei professionisti.

Decors

How to use - *Modo d'uso*

· To impress the decoration directly onto the preparation, place the mould with the decorated side up in a Tor180 / Multiflex170.

To instead create a decoration to be placed on the finished product, fill the mould with chocolate or tuile with the help of a spatula.

· Per imprimere il decoro direttamente sulla preparazione, posizionare in una Tor180 / Multiflex170 lo stampo con il lato decorato verso l'alto. Per creare invece un decoro da appoggiare sul prodotto finito, spatolare lo stampo con cioccolato o tuile.

· Unmould the mixture from the Tor180 / Multiflex170 mould and gently remove the decorative mould.

· Sformare il composto dallo stampo Tor180 / Multiflex170 e rimuovere delicatamente lo stampo decorativo.

· Remove the decoration from the mould and place it on top of the finished product.

· Estrarre il decoro dallo stampo e appoggiarlo sopra al prodotto finito.

Naturae®

HAUTE CUISINE / ALTA RISTORAZIONE

The nature as you have never seen it *La natura come non l'avete mai vista*

An original interpretation of natural elements that translates into a unique experience of taste and aesthetics.

The Naturae line was born from the creative and avant-garde vision of some of the most acclaimed chefs on the national and international scene and brings to the Ho.Re. Ca sector tools capable of combining functionality and beauty.

Naturae is not designed solely for savoury cuisine: these are nature-inspired shapes that also take centre stage in pastry-making and the art of plated desserts, giving life to exclusive creations ranging from starters to cake and modern single-portion decoration, from main courses to plated desserts with tuile or chocolate decorations.

A collection designed for professionals who want to turn every dish – savoury or sweet - into a unique and surprising masterpiece.

Una originale interpretazione degli elementi naturali che si traduce in un'inedita esperienza del gusto e dell'estetica.

La linea Naturae è nata dalla visione creativa e avanguardista di alcuni tra i più acclamati chef del panorama nazionale e internazionale e porta nel settore Ho.Re.Ca strumenti capaci di unire funzionalità e bellezza.

Naturae non è pensata solo per la ristorazione salata: sono forme ispirate alla natura che diventano protagoniste anche in pasticceria e nell'arte del dessert al piatto, dando vita a creazioni esclusive che spaziano dagli antipasti alla decorazione di torte e mono moderne, dalle portate principali ai dessert al piatto con decorazioni in tuile o cioccolato.

Una collezione progettata per i professionisti che vogliono trasformare ogni piatto - salato o dolce - in un'opera unica e sorprendente.

I DECORI

THE DECORS

MOULDS

Our mats from Naturae range presents always different different shapes in each mold, providing many designs only with one mould. They can be used either with "pâte à cigarette" or with chocolate for creating elegant and refined decorations. They are useful for decorating dishes, first and second courses, to create original aperitifs or to give a refined touch to plated desserts. It is also possible to cut the silicone mats following the guidelines provided, where present, for an even more practical use.

I tappeti della linea Naturae presentano sempre diverse forme in ogni stampo, offrendo numerosi design con un unico prodotto. Possono essere utilizzati sia con la pâte à cigarette sia con il cioccolato per creare decorazioni eleganti e raffinate. Sono utili per decorare antipasti, primi e secondi, per realizzare aperitivi originali o per donare un tocco ricercato ai dessert al piatto. È inoltre possibile tagliare i tappetini in silicone seguendo le linee guida riportate, dove presenti, per un uso ancora più pratico.

SILICONE BASKET FOR LEAVENING DOUGHS AND BREAD

- Totally hygienic
- Dishwasher-safe
- Micro holes for the evaporation of humidity
- Stackable
- Non-stick
- Providing the ideal conditions the bread dough needs before baking to develop properly
- Promoting the fermentation process by providing the dough with sufficient oxygen, which makes the bread soft and airy
- Suitable for use in both the oven +230°C/+446°F and blast chiller -60°C/-76°F.

CESTINO IN SILICONE PER LA LIEVITAZIONE DI IMPASTI E PANE

- Totalmente igienico
- Lavabile in lavastoviglie
- Microfori per l'evaporazione dell'umidità
- Impilabile
- Antiaderente
- Garantisce le condizioni ideali di cui ha bisogno l'impasto del pane prima della cottura per potersi sviluppare correttamente
- Favorisce il processo di fermentazione fornendo all'impasto ossigeno sufficiente, e questo rende il pane soffice e arioso
- Adatto sia per l'uso in forno +230°C che in abbattitore -60°C.

Tappeto Antiscivolo 30x40 cm

Size: 300 x 400 h 1,5 mm
33.018.36.0062

This 30x40 cm non-slip Mat is an essential ally in hotel and restaurant kitchens, as well as at home.

The two polished sides ensure 100% adherence to surfaces, making the use of knives and other blades safer. The cutting guide on the back of the item allows the mat to be divided in half to perfectly adapt to kitchen needs.

Il Tappeto Antiscivolo 30x40 cm è un alleato indispensabile nelle cucine di hotel, ristoranti e anche in casa.

I due lati lucidati garantiscono una aderenza del 100% alle superfici, rendendo più sicuro l'utilizzo di coltelli e di altre lame. L'invito al taglio sul retro dell'articolo consente di dividere il tappeto a metà per adattarsi perfettamente alle esigenze in cucina.

High-quality moulds for fine chocolates

Stampi di qualità per l'alta cioccolateria

The Chocado range brings all of Silikomart's expertise and the well-established qualities of materials such as Tritan™ and platinum silicone to the world of fine chocolate-making. Durability, resistance and reliable performance over time are the pillars on which this collection is built, designed to support chocolatiers and artisans in creating unique products.

Main features

Chocado moulds are made from Tritan™, a material that represents an evolution compared to traditional plastics:

- Durability: resists impacts and frequent washing, maintaining its properties unchanged even after years of use.
- Safety: free from PFAS, BPA, BPS and other bisphenols, perfectly suitable for food contact.
- Purity and resistance: guarantees superior performance and consistent reliability over time.
- Lightweight: lightweight moulds to make every process easier.
- Aesthetic: ensures glossy results without additional effort.

Versatility and reliability

With Chocado, creative possibilities in chocolate-making expand: many shapes can be combined with silicone moulds, allowing perfect inserts to be created. New textures and flavours can be experimented with, giving life to original creations. This results in versatile products, such as summer chocolates, ideal even during periods when traditional chocolate consumption tends to decrease. Every mould guarantees a glossy finish and an impeccable shape, thanks to easy unmoulding.

tritan™
from eastman

PFAS FREE  **BPA FREE**

La linea chocado porta nell'alta cioccolateria tutta l'esperienza di Silikomart e le qualità ormai consolidate di materiali come tritan™ e il silicone platinum. Durevolezza, resistenza e performance affidabili nel tempo sono i pilastri su cui si fonda questa collezione, pensata per accompagnare i cioccolatieri e gli artigiani nella creazione di prodotti unici.

Caratteristiche principali

Gli stampi chocado sono realizzati in tritan™, un materiale che rappresenta un'evoluzione rispetto alle plastiche tradizionali:

- Durata: resiste agli urti e ai lavaggi frequenti, mantenendo le sue proprietà inalterate anche dopo anni di utilizzo.
- Sicurezza: privo di pfas, bpa, bps e altri bisfenoli, è perfettamente idoneo al contatto con gli alimenti.
- Purezza e resistenza: garantisce performance superiori e affidabilità costante nel tempo.
- Leggerezza: stampi leggeri per facilitare ogni lavorazione
- Estetica: garantisce risultati lucidi senza sforzi ulteriori

Versatilità e affidabilità

Con chocado si ampliano le possibilità creative nella lavorazione del cioccolato: molte forme si abbinano agli stampi in silicone, permettendo di realizzare inserti perfetti. Si possono sperimentare nuove consistenze e sapori, dando vita a creazioni originali. Nascono così prodotti versatili, come i cioccolatini estivi, ideali anche nei periodi in cui il consumo di cioccolato tradizionale tende a diminuire. Ogni stampo garantisce una resa lucida e una forma impeccabile, grazie alla sformatura facilitata.

Chocado kits combine two premium materials:

Tritan, which is both durable and flexible, delivers exceptionally glossy finishes, while platinum silicone streamlines the creation of inserts to be added during assembly, optimizing the production process and ensuring flawless results.

I kit Chocado uniscono due materiali di altissima qualità:

il Tritan, resistente e flessibile, assicura finiture estremamente brillanti, mentre il silicone platinum semplifica la realizzazione degli inserti da aggiungere in fase di assemblaggio, ottimizzando il processo produttivo e garantendo risultati impeccabili.

3D THERMOFORMED CHOCO FIGURES

TERMOFORMATI 3D CHOCO FIGURES

The 3D thermoformed Choco Figures moulds are the ideal solution for creating three-dimensional chocolate subjects. With figures designed for every theme and season, they bring the sweetness and intensity of chocolate to every special occasion, ensuring flawless results. The finishing touch is personalisation, entrusted to the flair and creativity of the chocolatier.

Gli stampi termoformati 3D Choco Figures sono la soluzione ideale per creare soggetti di cioccolato tridimensionali. Con figure pensate per ogni tema e stagione, portano la dolcezza e l'intensità del cioccolato in ogni occasione speciale, assicurando risultati impeccabili. A completare l'opera resta solo la personalizzazione, affidata all'estro e alla creatività del cioccolatiere.

VELVET SPRAY OIL BASED

VELVET SPRAY BASE OLIO

The new oil-based spray delivers the same high-end decorative effect as cocoa butter sprays. It also guaranteed perfect results on non-frozen products, such as puddings, mousses, and more. Also suitable for decorating preparations covered with buttercream. This is a real plus for professionals and home users, offering greater versatility in everyday applications.

Il nuovo spray a base di olio offre lo stesso effetto decorativo di alta qualità degli spray al burro di cacao. Garantisce inoltre risultati perfetti anche su prodotti non congelati, come budini, mousse e altro ancora. È adatto anche per decorare preparazioni ricoperte di crema al burro. Un vero vantaggio per i professionisti e per gli appassionati di cucina, che possono così contare su una maggiore versatilità nelle applicazioni quotidiane.

THE ONE MIRROR GLAZE

GLASSA A SPECCHIO

The only powdered mirror glaze preparation that ensures the same results as the one prepared by hand. A single product to create multiple glazes. Easy to use (it is practically impossible to fail), it does not require the addition of other ingredients but only water ... It can't get easier than that! Furthermore, The One Mirror Glaze by i78 by Silikomart can be flavored with concentrated or chocolate pastes and coloured with water-soluble colourants (including natural ones). Available in two sizes: 300g and 1Kg pot to meet the needs of all consumers. The One Mirror Glaze powdered mirror glaze guarantees a transparent and shiny result, which is maintained even at negative temperatures.

L'unico preparato per glassa a specchio in polvere che assicura gli stessi risultati di quella preparata a mano. Un unico prodotto per creare molteplici glasse. Facile da usare (è praticamente impossibile sbagliare), non richiede l'aggiunta di altri ingredienti ma solo acqua...più facile di così! Inoltre The One Mirror Glaze di i78 by Silikomart può essere aromatizzata con paste concentrate o cioccolato e colorata con coloranti idrosolubili (anche naturali). Disponibile in due formati: barattolo da 300g e da 1 kg per rispondere alle esigenze di tutti i consumatori. La glassa a specchio in polvere The One Mirror Glaze garantisce un risultato trasparente e brillante, che si mantiene anche a temperature negative.

OIL-BASED LIPO COLOR

COLORANTI LIPO BASE OLIO

Concentrated oil-based fat-soluble colourings, ready to use and ideal for professional results. They are perfect for colouring chocolate, buttercream, sugar paste and all fat-based preparations. Their high solubility guarantees intense, bright colours with just a few drops, which distribute evenly with a simple stir, without the need for a blender and without forming lumps.

Coloranti liposolubili concentrati a base oleosa, pronti all'uso e ideali per risultati professionali. Sono perfetti per colorare cioccolato, crema al burro, pasta di zucchero e tutte le preparazioni a base grassa. L'elevata solubilità garantisce colori intensi e brillanti già con poche gocce, che si distribuiscono in modo uniforme con una semplice mescolata, senza bisogno di frullatore e senza formazione di grumi.

The water-soluble or fat-soluble food colours in powder are highly concentrated and they have a high pigmentation power. Thanks to the high quality of the product, a very small amount will be sufficient to color sugar paste, marzipan, icing, meringue, chocolate, mousse, icing and much more.

I Coloranti alimentari idrosolubili o liposolubili in polvere sono ad alta concentrazione e ad alto potere di pigmentazione. Grazie all'alta qualità del colorante, sarà sufficiente una piccolissima quantità per colorare paste di zucchero, marzapane, glassa, meringa, cioccolato, mousse, glasse e molto altro.

ISOMALTO

Isomalt is a natural substitute for sugar, which is mainly used for its physical characteristics similar to those of sugar. Isomalt is a disaccharide composed of two sugars glucose and mannitol. The isomalt can be dissolved either in the microwave or in a pan with double bottom. Isomalt is transparent (this differs from caramel) then you can either leave it as is or colour it (put the gel colour before it is dissolved). The flavour is equal to that of regular sugar. It cools more slowly than caramel and you have a little more time to shape the decorations.

L'isomalto è un sostituto naturale dello zucchero. Si tratta di un disaccaride composto dai due zuccheri glucosio e mannitolo. L'isomalto non ha l'indesiderato "effetto di raffreddamento" (cooling effect) proprio di altri zuccheri alcolici. Può essere utilizzato anche per la scultura di zucchero ed alcuni lo preferiscono in quanto cristallizza più lentamente. È trasparente (in questo differisce dal caramello) quindi potete lasciarlo così o colorarlo (aggiungendo dei coloranti in gel prima di scioglierlo). Il sapore è uguale a quello del normale zucchero. Raffreddandosi più lentamente del caramello, si ha un po' più di tempo per modellare le decorazioni.
