Södahl's organic values

Södahl makes it easy to choose an organic conscious everyday life with a range of organic products.

GB · SÖDAHL'S ORGANIC VALUES

A large part of Södahl's products are organic. The organic products are produced by suppliers who hold organic certifications. These suppliers adhere to high standards for product content, manufacturing processes, and the human and environmental conditions in which the goods are produced.
In other words, there are specific environmental requirements at all stages of manufacturing, for wastewater treatment, for the quality of the finished product as well as social criteria based on the primary norms of the International Labour Organisation (ILO), for instance, regarding employee conditions, salaries and entitlements.
By consistently adhering to the highest standards of organic production, we ensure that consumers receive the finest organic products.

DK · SÖDAHLS HOLDNING TIL ØKOLOGI

En stor del af Södahls produkter er økologiske. De økologiske produkter bliver fremstillet af økologisk certificerede leverandører. Leverandørerne lever op til høje krav om indholdet i produkterne, produktionsmetoder samt de menneskelige og miljømæssige forhold, varerne produceres under.
Med andre ord er der specifikke krav til miljø på alle stadier af fremstillingen, til spildevandsbehandlingen, til kvaliteten af det færdige produkt samt sociale kriterier baseret på de vigtigste normer fra Den Internationale Arbejdsorganisation (ILO), f.eks. om medarbejdernes arbejdsforhold, løn og rettigheder.
Ved altid at leve op til de absolut højeste standarder for økologisk produktion sikrer vi, at forbrugerne får de bedste økologiske produkter.

DE · SÖDAHL UND ÖKOLOGIE

Ein großer Teil von Södahls Produkten ist ökologisch. Die ökologischen Produkte werden von ökologisch zertifizierten Lieferanten hergestellt. Diese Lieferanten erfüllen hohe Anforderungen an den Inhalt der Produkte, die Produktionsmethoden sowie die menschlichen und umweltbezogenen Bedingungen, unter denen die Waren hergestellt werden.
Mit anderen Worten bestehen bei allen Produktionsstufen spezifische Anforderungen an die Umwelt, an die Abwasserbehandlung, an die Qualität des Endprodukts und an soziale Kriterien, die auf den wichtigsten Standards der Internationalen Arbeitsorganisation (IAO) basieren, beispielsweise in Bezug auf Arbeitsbedingungen, Löhne und Rechte der Arbeitnehmer.
Indem wir immer die höchsten Standards für ökologische Produktion einhalten, stellen wir sicher, dass die Verbraucher die besten ökologischen Produkte erhalten.

ORGANIC

Organic

A significant portion of our product range is organic.

We collaborate with certified organic suppliers who meet strict requirements for product content, production methods, and environmental and social standards.

Organic farming practices are designed to minimize the impact on the environment, including reducing soil erosion, concerving water, and promoting biodiversity.

RECYCLED

Global Recycled Standard

We are certified according to the Global Recycled Standard (GRS), which certifies and tracks recycled materials from the source to the final product. We are certified by Control Union, 1022510. Only products that carry the GRS label and claim are certified. Products that are GRS-certified contain recycled material that has been verified at every stage of the supply chain, from the recycler to the final product. In addition, there are requirements for social, environmental, and chemical criteria in connection with the processing.

THE CE MARK

CE

The CE mark signifies that our products comply with European Union safety, health and environmental protection requirements.

NORDIC SWAN ECOLABEL

The Nordic Swan Ecolabel is a well-recognized Nordic certification that assesses a product's environmental impact throughout its entire life cycle – from raw materials to production and disposal. The certification includes strict requirements to limit unnecessary chemicals and reduce the environmental footprint during production.

THREAD COUNT (TC)

TC refers to the number of threads per square inch in a piece of fabric. It is often used to measure the quality of bedding. The higher the TC, the denser the fabric. A higher TC can also result in a softer and more luxurious feel on the skin.

GRAMS PER SQUARE METER (GSM)

GSM refers to the weight of the fabric per square meter. In the context of terry cloth, GSM indicates its thickness. A higher GSM value typically means a thicker and more absorbent towel, while a lower GSM indicates a lighter towel that may dry more quickly.
