COLOURS CONNECT PEOPLE

I COLORI UNISCONO LE PERSONE

B Bottles radiate **colour**, inspiring **human connection**.
Colours are a rainbow of **hope**, fostering calm, confidence and **creativity** in any situation, embracing the **deep joy** that transcends **fun** and **conviviality**, instilling faith in the **future**, continuity and **clarity** of mind, expressing serenity, tranquillity, and **timeless familiarity**. We believe in the blues and greens of **nature**, signalling **life**, **growth** and **rebirth**; desire vibrant reds and gleaming golds for their energy, **dynamism** and **passion**. We welcome white and silver for a sense of peace, **purity** and **inspiration**; cherish pinks and yellows, illuminating the way ahead with their **bright vision**.
NOW is the time: people are yearning for **authentic connection**.
Technology tries to keep us close, but we live for tangible **relationships**; to feel the warm touch of people, places and objects that matter; to experience, after the rain, the **rainbow** once again.

Clemente Bugatti

IT Le B Bottles sprigionano **colore**, ispirano **connessioni tra gli esseri umani**.
I colori sono un arcobaleno di **speranza** che favorisce la calma, la fiducia e la **creatività** in qualsiasi situazione, abbracciano la **gioia profonda** che trascende il **divertimento** e la **convivialità**, infondono fiducia nel **futuro**, continuità e **chiarezza** di mente, esprimono serenità, tranquillità e **familiarità senza tempo**.
Crediamo nei blu e nei verdi della **natura**, che segnalano **vita**, **crescita** e **rinascita**; desideriamo i rossi vibranti e l'oro scintillante per la loro energia, **dinamismo** e **passione**. Accogliamo il bianco e l'argento per un senso di pace, **purezza** e **ispirazione**; amiamo i rosa e i gialli, che rischiarano la strada da percorrere con la loro **visione luminosa**.
ORA è il momento: le persone desiderano una **connessione autentica**. La tecnologia cerca di tenerci vicini, ma noi viviamo per **relazioni** tangibili; per sentire il tocco caldo di persone, luoghi e oggetti che contano; per sperimentare, dopo la pioggia, di nuovo **l'arcobaleno**.
