stories
live here.

2026

Design that dares to feel.

At Zone Denmark, we challenge the ordinary with a Scandinavian mindset and an unshakable belief in the power of simplicity.

We don't chase trends — we shape moments.

Our 2026 Master Catalogue is more than a collection; it's a curated manifesto of modern living — **a blend of Form, Function and Emotions.**

Every piece is designed to speak — not loudly, but with clarity. With honesty. With purpose.

We design for the spaces that matter most.

The ones where life unfolds — where calm meets edge, and where beauty has something to say.

Welcome to a collection that moves with intention.

When simplicity feels just right

TADA is all about being “just enough” – in form, function and feeling. Designed by Mavro//Lefèvre, the series is named after the Japanese word for “just”. It’s not about more, but about precision, calm and balance.

The soap dispenser and toothbrush mug are mouth-blown in tinted glass with a beautifully smooth finish. The clean lines bring a sense of tranquillity to the room and add a discreet touch of Japanese-inspired aesthetics to your bathroom.

TADA is available in muted colours, each one bringing its own warmth and character to your space.

Just right. Just beautiful.

Just right.
Just beautiful.

TADA BATH | Mavro//Lefèvre

SENSU:
Oasis of tranquility

Stay calm

Everyone needs a breathing space to re-energise. We can literally create our own. With welcoming minimalism and clean lines that pique, please and pamper our senses.

Do you want your bathroom to be an inviting oasis where you can breathe deeply and feel the stress melt away? Then take a look at our Japanese-inspired new SENSU range, and experience how beautifully this can be done.

Choose between Black, White and Sand – all with a smooth, refined finish. The new Taupe version stands out with a more raw, natural surface that adds texture and a sense of authentic character.

Love on the table

The rounded corners, soft shapes and circles of the SENSU range are repeated across the many designs for the vanity top. Just one look at the range tells you that you're in good company.

For the washbasin, you'll find a cute cylindrical soap dispenser with a neat little pump head. It matches the classic toothbrush tumbler, which, like the other designs in the range, is made of stoneware. The weight of the stoneware and the round base keep the toothbrush tumbler sitting securely on the vanity top. you can buy several and use them for make-up brushes, shaving equipment or other everyday favourites that you want to keep handy.

The SENSU jars with lids are available in two different sizes. The narrow jar can be used for cotton swabs or toothpicks, for example. The lid for this one makes a perfect tealight holder if you flip it over. The wide jar is more spacious and suitable for hair accessories, make-up favourites or jewellery and watches, for example.

Good things well-grounded

The SENSU range presents two ground-dwelling designs. Both boast pleasantly soft, organic styling.

The 4-litre plastic pedal bin has a chubby cylindrical body. The look is charmingly complimented by two circle shapes. One on top of the lid as a decorative detail; the other in the shape of a small round pedal at the front.

The toilet brush is a reinterpretation of the traditional variants on the market. The open-back design of the holder lets you choose whether to conceal or reveal the brush.

Despite its light-weight appearance, the toilet brush sits firmly on the floor. The grip is secure for easy cleaning of the toilet bowl.

Minimalism meets function

With the SENSU hooks, you get functionality and aesthetics in perfect harmony.

Inspired by Japanese simplicity, designer duo Mavro// Lefèvre have created hooks that celebrate the pure beauty of the circle.

Crafted from powder-coated birch wood, the hooks come in three muted colors that perfectly match the elegant SENSU bath series. Available in four different sizes, ranging from 2.5 cm to 10 cm in diameter, you can create your own unique wall composition.

With their timeless design and versatile functionality, the SENSU hooks are a perfect fit for every room in the home. From the bathroom to the hallway and kitchen, they effortlessly organize everything from towels and robes to dish towels, scarves, bags, and coats.

A graphic statement that brings order and calm.

Soft geometry.
Strong impression.

Special attention to detail

The soft organic shapes contrast beautifully with the stylish, cool steel of the range, which has been created in collaboration with the VE2 design team. At floor level, the range offers a small pedal bin and a toilet brush in a cylindrical holder. For the wall, there's a matching toilet roll holder, and an elegant U-shaped hook with concealed fittings.

A perfect transformation

The UME range has been a key icon of the Zone bathroom collection for years now. The new releases in this range come in an exclusive new material: matte steel. An obvious choice for bathrooms and toilets where a beautiful marriage of function and aesthetics is needed.

Bring news to the table

For the vanity top, there's a soap dispenser, soap dish, toothbrush tumbler and round, tilting tabletop mirror. Despite the matte effect of the steel, the light reflects beautifully from the surfaces, adding verve and vibrancy. All in all, a perfect transformation of a true Zone classic.

red dot winner 2025

A golden twist on a timeless classic

The popular UME bathroom series has been given a new, sophisticated look with a warm, matte brass finish – an exclusive choice for creating an inviting and harmonious bathroom atmosphere.

The soft, organic shapes blend beautifully with the subtle warmth of the matte brass, adding a refined sense of luxury and timeless charm to the series.

A perfect balance of function and aesthetics.

● new

● new

A harmonious whole

A complete UME set featuring a soap dispenser and toothbrush mug – elegantly gathered on a matching tray. Every detail is designed to work together from the start, creating a sleek and considered solution for the bathroom, where form and function come together in perfect harmony.

● new

● new

Stylish simplicity, beautifully organised

The new trays, available in two sizes, strike a perfect balance between form and function. Use them to gather your everyday favourites – soap dispenser, toothbrush mug, storage jar, fragrance sticks, perfumes, jewellery or other small treasures – whether in the bathroom or elsewhere around the home. Choose between Black, White and Taupe, and let the trays frame your daily rituals with quiet elegance.

● new

A lift for your bathroom

The UME wall holder lifts the soap dispenser and toothbrush mug elegantly off the table surface – freeing up space around the sink and giving your bathroom a lighter, more organised look. Made from powder-coated aluminium, it comes in Black and White. A discreet design solution that unites form and function – making cleaning easier and keeping your everyday style effortlessly on point.

GERMAN DESIGN AWARD WINNER 2019

reddot design award winner 2018

UME:

It’s not magic. Just great desi

Japanese purity meets Scandinavian audacity, and beautiful design emerges. Quite simply, it’s UME.

UME is Japanese for plum tree. It symbolises patience and strength, and elegance, too. And you clearly sense that when looking at the range. The U-shape contributes aesthetic calmness and stability. There’s a light-and-airy Nordic feel, too. The products are virtually floating, as if by magic. But it’s not magic. It’s just great design.

The VE2 design team is behind UME. Their work has been recognised with a number of design awards over the years. We suspect there are more to come.

gn.

Calm and harmony

The new Camel shade brings an earthy elegance that reflects today's love for soft, muted tones. It adds a sense of calm and balance to any space – beautifully complementing both natural materials and cooler contrasts.

A sophisticated upgrade for the style-conscious bathroom.

Beauty in the mirror

A must-have table mirror that will look great wherever you place it. One side is a normal mirror, while the other side has 5x magnification. The mirror rotates securely about its own axis, carried on a wide aluminium frame that also serves as a stable base for the mirror. It is powder-coated for a pleasant matte appearance.

Ready for life's little challenges

Everyday moments often call for a handy tissue. With its simple and elegant expression, the Ume tissue box blends seamlessly into any space – whether it's in the bathroom or kitchen, in the hallway, or to bring along in the car or on the boat.

The soft and subtle colors make it easy to match the box with any décor, while the practical design ensures that you always have a tissue within reach when you need it most.

The box comes in two versions: one for the classic square tissue boxes and one for the larger, rectangular ones – perfectly suited for everyday life, no matter where it takes you.

Organic and practical

The organic addition to the UME series makes light work of dealing with laundry. It's easy to remove the lid, but you don't always have to. Socks and other small items can be posted through the hole in the middle. On the side are two smaller holes that serve as handles for moving the laundry basket around.

Laundry made lovely.

Your laundry ally

The low, open UME basket is both practical and neat. Its organic, transparent look adds an air of lightness to the room. Two round holes in the sides are visually pleasing, while giving you something to hold on to as you move it around. The basket is brilliant for taking dirty laundry to the washing machine, or clean clothes to the clothesline.

Matches the large lidded variant in the same range and comes in all 9 delectable UME shades. Lid can be purchased separately

U for useful

The well-known UME U-shape is echoed in the wall-mounted toilet roll holder. Solid, yet light and airy. Concealed fittings, easy mounting, roll change in a jiffy. What more could you ask?

Choose from 9 different shades besides matte stainless steel and brass finish.

A new home for toilet rolls

The cylindrical toilet roll holder holds three rolls, and can sit wherever you want. With its weighted base, this decorative little tower stands firmly on the floor. Made exclusively of powder-coated aluminium, it is easy to dust off and withstands life in the humid environment that a bathroom can be. Just lift the lid to add more rolls.

Hooked on design

The small wall hooks securely but discreetly hold anything from towels to your bath brush. The rounded corners add a friendly look, and the concealed fittings ensure a flattering lightness against the wall. They are easy to install; in fact, the hardest thing is probably choosing the colour. These little beauties in powder-coated aluminium are available in 9 different shades besides matte stainless steel and brass finish.

Cut and dried

With its wide grip, the wiper sits well in your hand. The silicone surface feels pleasant and comfortable as you move it across wet tiles. The end of the head is cut at an angle, which makes the wiper extremely effective. The design idiom is an extension of the well-known sweepingly organic lines that the popular UME range is renowned for.

Available in 9 different shades to match the rest of the UME range.

TIME:
Contemporary classic

Concrete charisma

The TIME bathroom range definitely invites a second glance. Zone Denmark has brought a whole new material into play. Three of the four products in the range – the soap dispenser, toothbrush mug and toilet brush – are made of concrete with just a few plastic details added. The pedal bin, on the other hand, is pure ABS plastic, but colour-matches the concrete products, giving the range a consistently powerful look and feel.

With uncompromisingly 'concrete' charisma and naturalness, concrete has found its way into interior design in recent years. It is at the same time hard, soft and very beautiful. Being fired at lower temperatures is another advantage of concrete, saving on energy consumption during production. Finally, it is worth noting that, on reaching the end of their current life, these products can be crushed and reused.

The range is exciting and stylish. It's dignified and carefully considered. For example, all the designs feature a silicone base to protect surfaces from being scratched. TIME is a promising take on a contemporary classic bathroom range and, by the way, is by the Mavro//Lefèvre design team. Choose from four colours: Concrete and three coloured variants, Black, White and Soft Grey.

GERMAN DESIGN AWARD SPECIAL 2019

NOVA ONE:

A genuine classic

● new

Silky soft success

NOVA ONE is love at first touch. The surface is silky soft, and the style is delightfully simple. Consistent throughout the range, the pure tone-on-tone nuances create a coherent look in the bathroom without stealing the show.

Perhaps the delicate sense of colour and honest organic styling are the secret of NOVA ONE's success. The range has won awards for its design and remains one of Zone Denmark's all-time best sellers.

GERMAN DESIGN AWARD WINNER 2022

RIM:
Exclusive
and ultrasimple

Taking bathroom interiors to new levels

Zone Denmark is launching RIM – the design brand's most comprehensive range of attractive and functional bathroom ware to date.
The exclusive and ultrasimple style has been created in collaboration with Danish designers VE2. The furnishings combine the beautiful design you want with the peace and harmony you need from your bathroom.

The whole range is available in black and white and made from powder-coated aluminium, meaning they are easy to clean and built to last. Several of the products can be wall-mounted for ease of use, hygiene and clean aesthetics.

Practical never looked this good!

The RIM towel rails blend naturally into the décor. Simple and elegant. They are made of powder-coated aluminium and are available in two lengths: 44 cm and 70 cm. Choose the narrow single-rail or the slightly deeper double-rail model. You could even place the towel rails at staggered heights on the wall. That will liven up the room, while accommodating different user heights.

Match with the wiper from the same range, available in two widths (22 and 30 cm) and designed in a calm and inviting look.

Complement with matching hooks on the wall where needed.

Wall-mounted wonders

RIM offers soap dispensers, toothbrush mugs, bathroom bins, toilet roll holders, toilet brushes and toilet roll storage in a beautiful unified design, all of which can be wall-mounted.

This creates a clean, floating look, elegantly achieved by the concealed fixtures. The products are made of powder-coated aluminium and available in black and white.

RIM's minimalist soap dispensers, toothbrush mugs, soap dishes, toilet brush holders and pedal bins are of course also available in the classic freestanding versions – all in an elegant, simple design to delight you and your guests.

So elegant so simple

Everything in place. Ready for action

A sleek, functional solution that brings toilet paper and brush together in one freestanding design – no screws, no wall mounting required. The slimline holder fits easily into any bathroom and is simple to move thanks to the top handle. Ideal for cleaning – or when you want to shift the look just a little.

The brush sits discreetly at the base, always ready, while the clean lines tie in perfectly with the rest of the RIM series.

At your convenience

Toilet butler ready to roll

This design is a real eye-opener. This toilet roll holder is a cool way to keep the toilet paper ‘at your convenience’ without drilling holes in the wall. You can move it out of the way for cleaning, or tweak the styling in your little room by placing it on the other side of the WC.

The toilet roll holder is made of aluminium and matches the style of the rest of the RIM range. With a simple silhouette, it’s easy to wipe and keep clean. At the top you’ll find a discreet, simple handle for lifting. The base has practical storage for two extra rolls.

Choose classic Black or White.

SAUNA:
Urban ease

● new

Graphic indulgence

Meet SAUNA – a towel series that speaks in stripes. Inspired by the clean lines of classic wooden sauna interiors, the design plays elegantly with perspective and colour balance. Each side of the towel highlights its own dominant colour – a subtle detail that offers two distinct looks in one.

Retro-inspired and rich in personality, the bold stripes add a graphic, urban touch. And with a soft, heavyweight quality in yarn-dyed 600-gram cotton, these towels feel as luxurious as they look.

Choose between 50 x 100 and 70 x 140 cm – and let SAUNA add a graphic, colourful signature to your bathroom.

● new

Soft luxury in calm colours

The SAUNA series unfolds in new solid-colour variants with a subtle, harmonious expression – still in the same beautifully thick, high-quality fabric. The new towels are designed to match the striped SAUNA towels, offering a perfect opportunity to mix graphic patterns with calm simplicity.

The solid-coloured towels come in three sizes – 50 x 70, 50 x 100 and 70 x 140 cm – and are joined by a face cloth and a wash glove in carefully selected shades to match the towels.

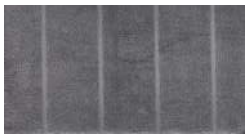

Living life to
the fullest.

Classy CLASSIC

Zone's popular CLASSIC towel series retains its form, high absorbency, colour saturation and fullness wash after wash. The series caters for literally every need with sizes 30 x 30 cm, 70 x 50 cm, 100 x 50 cm, and the all-embracing bath towel measuring 140 x 70 cm, in 14 colours that match UME and NOVA bathroom series.

CLASSIC towels are OEKO-TEX® certified.

Can be washed at 60°C.

Available in 3 sizes with matching face cloth.

Hang on...

Some towels have loops that break easily. Others are born entirely without. But all towels deserve to hang securely on the wall when in use. And now they can, with the LOOP magnet – a simple silicone strap with a powerful magnet at each end. Simply loop the LOOP magnet round one corner of the towel, and it's ready to take up its position on any hook you want. Hang on, there's more: The LOOP magnet is easy to remove when it's time to wash the towel. You can choose from an amazing array of 13 bold colours, and the magnets come in boxes of two.

Solo. Standing the test of time.

Simplicity in full length

The SOLO floor wiper is all about function and clean lines – designed for efficient cleaning of the shower area. The extra-long handle allows you to wipe the floor without bending down, while the flexible silicone blade glides along the surface, leaving it dry and spotless. If the blade wears out, it can easily be replaced.

From mess to minimalism

The INU Spa range also unleashes delightful interiors that are easy on the eye. Such as the beautiful steel baskets for holding towels or laundry in the bathroom, pillows, blankets and magazines in the living room – or large leafy plants anywhere in your home. The mirror-image arched, practical grips lend character to the airiness and soft lines of the design.

So handy for everyday essentials!

The new INU tabletop wire baskets are akin to the popular large floor baskets in the same range. They may look smaller, but their possibilities have grown! These handy tabletop baskets can be used for virtually any everyday essentials. From hair ornaments in the bathroom, to fruit and vegetables in the kitchen, or plants on the coffee table. They'll hold whatever you want to put in them.

An invitation to self-indulgence

The INU brushes in Zone Denmark's spa range have been created for those little moments of pleasure and presence in our busy routines.

The range includes two bath brushes, a brush for footcare and, of course, a nail brush. They are made of light beech wood and natural hair, and their soft, organic design harmonises beautifully with the simple decor and soft shades of the bathroom. Like the mirror, the wood is treated with protective beeswax for a beautiful patina.

Natural beauties

The simple organic design and decorative light beech finish of the INU mirror in Zone Denmark's spa range exude contemporary luxury and is reimagining of the classic hand mirror.

The glass is mounted in a frame, which adds a decorative touch even when the mirror is lying face down, while also protecting the glass from scratches. The fine, light wood is treated with beeswax, so even if the mirror acquires a patina, it retains its quality and only becomes more beautiful with time.

Take your moment - anywhere

Crafted for movement.

Made for moments.

For life on the go – and those little breaks in between

We all know that life doesn't quite get going without coffee – or water, for that matter. That's why VE2 has designed a versatile To Go cup that keeps pace with modern urban life.

And here's the clever twist: each cup comes with both a click lid and a screw lid, so you can choose whether to use it as a cup or a bottle. Depending on your day – and your mood.

The double-walled stainless steel cup keeps coffee hot for up to 12 hours and your cold drinks refreshingly cool all day long. Ideal for commuting, urban escapades or hydrating on the move.

When it's time to enjoy your coffee, the silent click lid opens effortlessly with one hand. The cup features a 360° drinking rim and a soft edge that feels like your favourite cup. And thanks to the wide bottle opening, you can easily add ice cubes, tea bags – and fill or clean it without fuss.

The sleek silhouette slides effortlessly into your cup holder. And if you're carrying cold drinks, the secure screw lid makes it bag-friendly and leak-free.

The SINGLES To Go cup comes in two sizes – 0.4 and 0.65 litres – both ready to keep up with your city rhythm, yoga sessions or weekend getaways.

Because life's little breaks deserve thoughtful design – and this one truly delivers.

The cup that keeps up.

2 lids included
Silent click lid to open/close
Screw lid to seal

The lamp that shines even before you turn it on

With its Scandinavian simplicity and glossy, shiny surface, the Oblong lamp is not afraid to attract attention. The geometric shapes combine to create a truly iconic look.

Depending on how you position the lamp, you can go for a slim or wide profile. To turn it on, there's a discreet button at the front, and the beam of light is well dispersed and points downwards to avoid glare. There is a choice of three light levels, depending on whether you want a reading light or accent lighting, e.g. on a bookcase, on a shelf or in a window.

The VE2 design team designed the lamp, which is available in Black, Warm Grey, Limoncello and Maple. The lamp is robust enough to be taken outside, but should be stored indoors. Battery life is up to five hours at full brilliance, and recharging is easy thanks to the included mini-USB cable.

Scandinavian simplicity

Unfold for ultimate pampering!

Ultimate pampering coming up on white oiled ashwood! The INU tray is designed to surprise loved ones with breakfast in bed or lunch in the open air. The legs are easy to unfold and their outwardly sloping position ensures good stability. A tray like this can catch stray blueberries or drips of coffee, with a discreet edge to ensure both are deftly kept in. When the tray is not in use, you can fold the legs away in a jiffy so it doesn't take up much cabinet space.

Look forward to pampering someone – possibly yourself.

Organise your space

From mess to minimalism

The INU range unleashes delightful interiors that are easy on the eye. Such as the beautiful steel baskets for holding towels or laundry in the bathroom, pillows, blankets and magazines in the living room – or large leafy plants anywhere in your home. The mirror-image arched, practical grips lend character to the airiness and soft lines of the design. The stackable baskets are available in four sizes.

So handy for everyday essentials!

The INU tabletop wire baskets are akin to the popular large floor baskets in the same range. They may look smaller, but their possibilities have grown! These handy tabletop baskets can be used for virtually any everyday essentials. From hair ornaments in the bathroom, to fruit and vegetables in the kitchen, or plants on the coffee table.

They'll hold whatever you want to put in them.

Functional minimalism

About the A-COLLECTION

These minimalist designs of the A-COLLECTION are made of powder-coated steel in a colour palette to complement contemporary interiors. Their consistent styling adds serenity and coherence to the décor, uniting form and function in the hallway, kitchen, office, children's room and bedroom – or wherever else you need storage, flexible seating or somewhere to check how you look before you leave for going out.

New Yorker-style or home bar?

Your imagination will soar when you see this trolley. One minute you're standing in a funky rooftop bar in New York sipping a cocktail. The next, the trolley tray is brought in carrying warm breakfast rolls on a sleepy Sunday. Good design has the ideas queuing up! It's up to you whether you want to use the A-COCKTAIL TROLLEY as a home bar, in your kitchen or living room, or in a teen bedroom. It's ready to roll, whatever you make of it.

Max load: 15 kg

Hurray for outdoor living

Movable summer party

How do you make a great G&T even better? Serve it under open skies! Roll out your summer drinks on this stylish, versatile A-COCKTAIL TROLLEY to enjoy them where they'll taste even better – on your patio or balcony, or in a corner of the garden, perhaps?

The table has two large, fixed shelves. There's even a little tray straddling the trolley that lifts off so you can serve your freshly mixed drinks. The trolley comes in a choice of Black or Soft Grey. Made of powder-coated steel, it's ready to roll out, making your summer even more beautiful. You can move it around as the sun moves across the sky, too...

Not just a pretty face

Not just a pretty face. Mirrors are not only brilliant for checking if your hair looks OK. They also make small spaces appear larger and create a cool effect as part of a gallery wall.

A shoehorn for young and old

Everyone should treat themselves to the little everyday luxury of having a good shoehorn on hand. VE2 has designed a really good one that is a pleasure to use, for hand and foot. This simple shoehorn comes with a practical silicone strap, so you can hang it right where you need it. With an A-SHOE HORN, suddenly being gentle on your knees, back and shoes is so much more appealing.

The shoe horn is made of powder-coated steel and is available in White, Soft Grey or Black.

Sit where you want

The built-in handle makes it easy to grab and carry the A-STOOL to wherever it's needed - perfect for anyone who needs a quick, portable seat or a step up, adding both versatility and functionality to a simple piece of furniture.

ROCKS:
Design for the home bar

Make room for ROCKS

– Zone Denmark's collection of beautiful crystal glasses and bold design items for the home bar. Women have taken over the shaker and are serving delicious cocktails and low-key drinks, accompanied by tapas and lounge music.

They want good taste – in the glass and in their interior decorating – and ROCKS delivers both.

ROCKS is good design that will blend into any minimalist interior – even among stylish home furnishing bloggers. It offers the tools to satisfy the most critical bartender. And a range of crystal glasses that will convince you there's a world of difference when you serve a drink or cocktail in the right glass.

Santé.
Cheers.
Prost.

Skål! To moments in good company.

GOLD AWARD 2021

reddot winner 2020

Drinks glasses that appeal to all senses

A nice drink is a moment of pleasure that engages all your senses. It simply tastes better in a lowball glass, and the pleasure of a long drink is extended when it is served in the obligatory highball glass.

That's why Zone Denmark's ROCKS bar concept also includes a range of 10 different lead-free mouthblown crystal glasses. The design is a simple conical shape with gorgeous, sensual details such as a solid bottom – created to bring out the best in your drinks.

CHAMPAGNE GLASS | Mavro//Lefèvre

ROCKS LOWBALL GLASS | Mavro//Lefèvre

Because there's always something to celebrate

Stylish and slender mouth-blown champagne glasses, so you can enjoy the sight of the sparkling bubbles.

Designed by Mavro//Lefèvre to match the delicate design of the other glasses in the series. And there's always a reason for champagne!

ROCKS COUPE/COCKTAIL GLASS | Mavro//Lefèvre

ROCKS HIGHBALL GLASS | Mavro//Lefèvre

For perfect pours and unforgettable moments

A feast for the eyes and the taste buds

You can see it's a celebration even from a distance!
And that's how it feels when you raise your glass.
The slender stem carries the wide, open top so elegantly.

Let the champagne flow and your spirits rise!

Award-winning beauties

The elegant wine glasses have a long stem and a wide bowl. The rim is slightly narrower than the bowl, enabling the wine to hit your palate and tongue perfectly – details that ensure that the colour, taste and bouquet of the wine can all be enjoyed to the full.

The bold design has earned Zone Denmark one of the most prestigious awards the design brand has received – the internationally recognised Red Dot Award.

ROCKS WHITE WINE GLASS | Mavro//Lefèvre

Time to chill – now with a lid!

The elegant carafe in the ROCKS range is now available with a practical silicone lid. This means you can chill tapwater in the fridge without it taking on a taint. The iconic base reproduces the design idiom of the drinking glasses in the range, so the carafe fits in beautifully.

Gift idea or self-indulgence? You decide.

ROCKS CARAFE | Mavro//Lefèvre

When small is beautiful

What a fine feminine figure of a beer glass! A joy to behold and perfect for pouring a little less. The size is perfect for sharing a beer, or if you want to have a taste of several different beers on the table. Mavro// Lefèvre is behind the gorgeous hand-blown glass design – a worthy and welcome addition to this range of glassware.

ROCKS WINE RACK | Mavro//Lefèvre

Wine rack with room for expansion

The Mavro//Lefèvre design team that is behind the ROCKS wine racks took their inspiration from the captivating furniture universe of metal wires as a supporting element. It is characterised by a raw yet light-and-airy look that blends naturally into the décor in many places.

The ROCKS wine racks are crafted in black powder-coated steel. They are easy to put the bottles into, and it is easy to add more modules over time. You can expand horizontally or upwards, depending on space limitations in your home. Thanks to the few metal wires that hold the structure together, the styling is transparent and timeless. An excellent gift for wine lovers.

Shape your table story

new

New patterns. Endless possibilities

The popular hexagonal trivets have welcomed two new designs, adding fresh dimensions to your table setting. CUBE brings depth and movement with its three-dimensional pattern, while BOLD steps forward with a striking, graphic edge that lends the design both strength and character.

Mix and match shapes and colours – with each other or with past favourites from the series. Build patterns, create rhythm, play with contrast or go tone-on-tone. The expression is yours to shape.

● new

Design favourites for the table

Small details can make a big difference on the table. The new coasters continue the iconic design language of the popular HEXAGON, TRIANGLES and BOLD trivets, adding a graphic and cohesive touch to your table setting. The six coasters are gathered in an elegant holder and deserve a permanent place on the table — ready for cold drinks, hot coffee and cozy moments.

Dishwashing with flair

This set is everyday design at its very best – thoughtful, graphic and easy to love. The brush features a clever snap function, allowing the brush head to be easily clicked off and replaced. A small detail that makes a big difference.

The powder-coated steel stand has a light and elegant silhouette, with space for both dish brush and dishcloth. Everything has its place, and the look is calm and perfectly balanced.

● new

Small but mighty

The SINGLES dishwashing station has gained a charming little sibling – compact, cool and ready to take on even the most stubborn food residue. The included scrubbing brush may be small in size, but it packs a punch when it comes to cleaning pots and pans.

Just like its bigger brother, the design is clever down to the last detail – and the function is just as smart: fill the bowl with soap, press, and let the brush do the work. Use the dispenser with the included scrubber or any favourite dish brush.

reddot winner 2026

Minimal space. Maximum function.

The SINGLES Dishwashing Station is a small everyday marvel that makes doing the dishes both easier and smarter. Its clever design combines sponge and soap dispenser in one – with a dual-sided sponge, of course, featuring both a soft and a scrub side.

Simply pour washing-up liquid into the base, press the sponge down lightly, and you're good to go. Any excess water drains discreetly into a hidden reservoir that's easy to empty when needed.

Compact and practical by the kitchen sink – and part of the SINGLES series, where thoughtful functionality meets lasting design. Extra sponges sold separately.

Simple, efficient, and effortlessly operated with just one hand.

“One push -
and I’m on top of things”

SINGLES Dishwashing Station

Clean lines, pure pleasure

This is your everyday kitchen essential, pared back to the bone. The dishwashing set includes a brush, dishcloth and caddy – nothing else. The handle can be placed in three positions: upright for carrying, tilted to the front for hanging thecloth to dry, or tilted down the back to save space.

Love at first squeeze

The world is full of unfulfilled promises. But not in the case of SPLASH. Need soap for your dishes? Just lift the dispenser, give it a light squeeze and put it back in place. If SPLASH is empty, simply unscrew the base to refill. And cleaning is easy, as it's dish-washer-safe. You'll love it!

DIISH: Space-saving design

Truly uncompromising quality

The DIISH dishwashing set is uncompromising quality and well-thought-out design. Proportions that are just right, materials that will last, and details that are carefully thought out. At the forefront of the stage is what you use most – the dispenser duo for dishwashing liquid and hand soap/sanitizer. Both are made of ceramic. Backstage, the knitted dishcloth is hung up to dry, out of sight until you next need it. Its companion is the colour-matched brush. A final nifty detail is the small tray that collects excess water so it doesn't end up on your worktop.

The DIISH draining tray is a stylish friend beside your kitchen sink. It is made of silicone, so it is stable and non-slip on your worktop. Soapy bubbles inspired the delicate bubble pattern. This is highly practical and allows glasses to air and dry faster. The two powder-coated steel plate racks do a similar job, accommodating up to 16 plates. When not in use, one fits inside the other so both can be stowed in the cutlery holder. This way, the set takes up the least possible space and can be easily packed away, making DIISH the obvious choice for apartments, holiday homes, student housing and other places where space is at a premium.

“If I could, I would do the dishes for you...”

SINGLES Dishwashing Set

Say hello to an everyday hero

The SINGLES dishwashing set contains everything you need to do the dishes. Compact and uncompromising.

The container is made of easy-clean silicone that’s pleasant to the touch. There’s room for a soap dispenser on one side and a brush on the other. The metal handle in the middle comes in handy when you need to move the set. But it’s also a great place for drying the cotton cloth, which is included. The solid ceramic soap dispenser will last for years. If the brush head wears out, it can easily be replaced.

Tasty new shades

This Zone Denmark classic is a popular way to organise the area around the kitchen sink, keeping everything neat and tidy for a checked look.

Ever ready to do the dishes

It's just what you need for your everyday washing-up – nothing more, nothing less. A nice, comfortable brush, a decent sized soap dispenser, a matching dishcloth and a silicone tray to set the scene beautifully. Viewed from above, the steel frame holding the set together curves to form a gentle semicircle, making the set easy to pick up when you want to wipe the work-top, for example. Better still, the frame provides a place to rest the brush and dry the cloth. Thoughtful, dainty and delicate design by Neu Studio. Available in the Offwhite.

The INU dishwashing brush is made of FSC™-labelled beech treated with beeswax. This and the round shaft ensure a soft, comfy grip. The angle between head and shaft is absolutely perfect. You'll just know as you wash the very first cup. There's a round hole at the end of the shaft to insert a strap if you prefer to hang up the brush. The beautifully organic shape and choice of materials are echoed in the vegetable brush and pot brush in the same range.

*License no FSC-C166612

Celebrating everyday life

The wow way to do the dishes

Small designs can sometimes make a big impression.
Such as here, for example. What a stylish way to dispense just the right amount of soap!
The rocket-shaped body of the dispenser has a futuristic elegance. A new iconic everyday design in the SINGLES range is ready for take-off.

With its broad, cylindrical base, the dispenser sits firmly on the countertop. Gentle pressure dispenses just the right amount of soap from the hole in the top. To refill, simply unscrew the top. The dispenser is made of silky soft silicone that is pleasant to the touch and easy to wipe clean.

**“I’m not rocket science.
I’m just clever design!”**

SINGLES Soap Dispenser

GOLD AWARD 2020

Beans to brew

anytime, anywhere

Great coffee at all times – now in two sizes!

The 1-litre SINGLES thermo jug has been successfully keeping coffee hot for years. Now it is joined by a smaller 0.6-litre version, ideal for a single person or an evening coffee for two. The previous screw cap has now been replaced by a practical click lid, so you don't have to unscrew a cap to pour. A single touch to the top is enough to start a fine stream of black gold flowing.

VE2 is behind the beautiful 0.6-litre and 1.0-litre thermo jugs. Both have a glass flask inside surrounded by a PP shell, and are available in Black or Warm Grey.

A matter of time

Many people are yearning for a return to the little day-to-day routines that take time and give us a breathing space in our busy lives. Slowbrewing coffee in a filter is a prime example. The SINGLES filter holder fits both jug sizes, so you can brew the coffee in the jug itself, and inhale deeply to enjoy the aroma as your favourite mocha drips through.

SINGLES THERMO JUG | VE2
SINGLES COFFEE FILTER | VE2

“The way you look at me makes me feel all warm inside...”

SINGLES Thermo Jug

SINGLES say:

Ready for a design flirt?

Singles are design items with a fresh, new charm added by Danish designers!

The result is cool design gadgets that keep their promises, but also have fascinating details and seductive new twists.

A collection of flirtatious products in the design and home decorating category.

Steel with style and substance

Brushed steel is the new black in kitchen décor – and it suits the SINGLES collection exceptionally well. Now, a selection of iconic designs is available in exclusive matte steel, bringing a touch of elegance and edge to the minimalist home.

This timeless material exudes quality and character. Steel endures everyday use and ages with grace. Whether you're drawn to the sculptural knife block or the bold kitchen roll holder matte steel is a stylish and sturdy choice that elevates your kitchen game.

Love your table?

Then let SINGLES collect the drips for you. The round silicone glass coasters come as a set of six in a holder, and they will keep wooden tables dry and immaculate under tumblers, beer glasses and wine glasses. Choose from a handful of glorious colours.

A place for order

You can’t get too much of a good thing. This nifty tray with handle from SINGLES is available in two sizes and can hold olive oil and spices in the kitchen, your whole arsenal of creams in the bathroom, or pens, phone chargers and favourite knick-knacks on your desk.

The tray is made of powder-coated metal and available in Black and Warm Grey.

“Take me by the hand - I’m such good company!”

SINGLES Egg Cup

Offline quality time in the kitchen

Park your mobile, and head to the kitchen with the timer from SINGLES. Make a cake with the kids, or rustle up a romantic dinner – full of love and attention. And then pick up the timer by its neat handle, and spend roasting and baking times with a good book on the sofa.

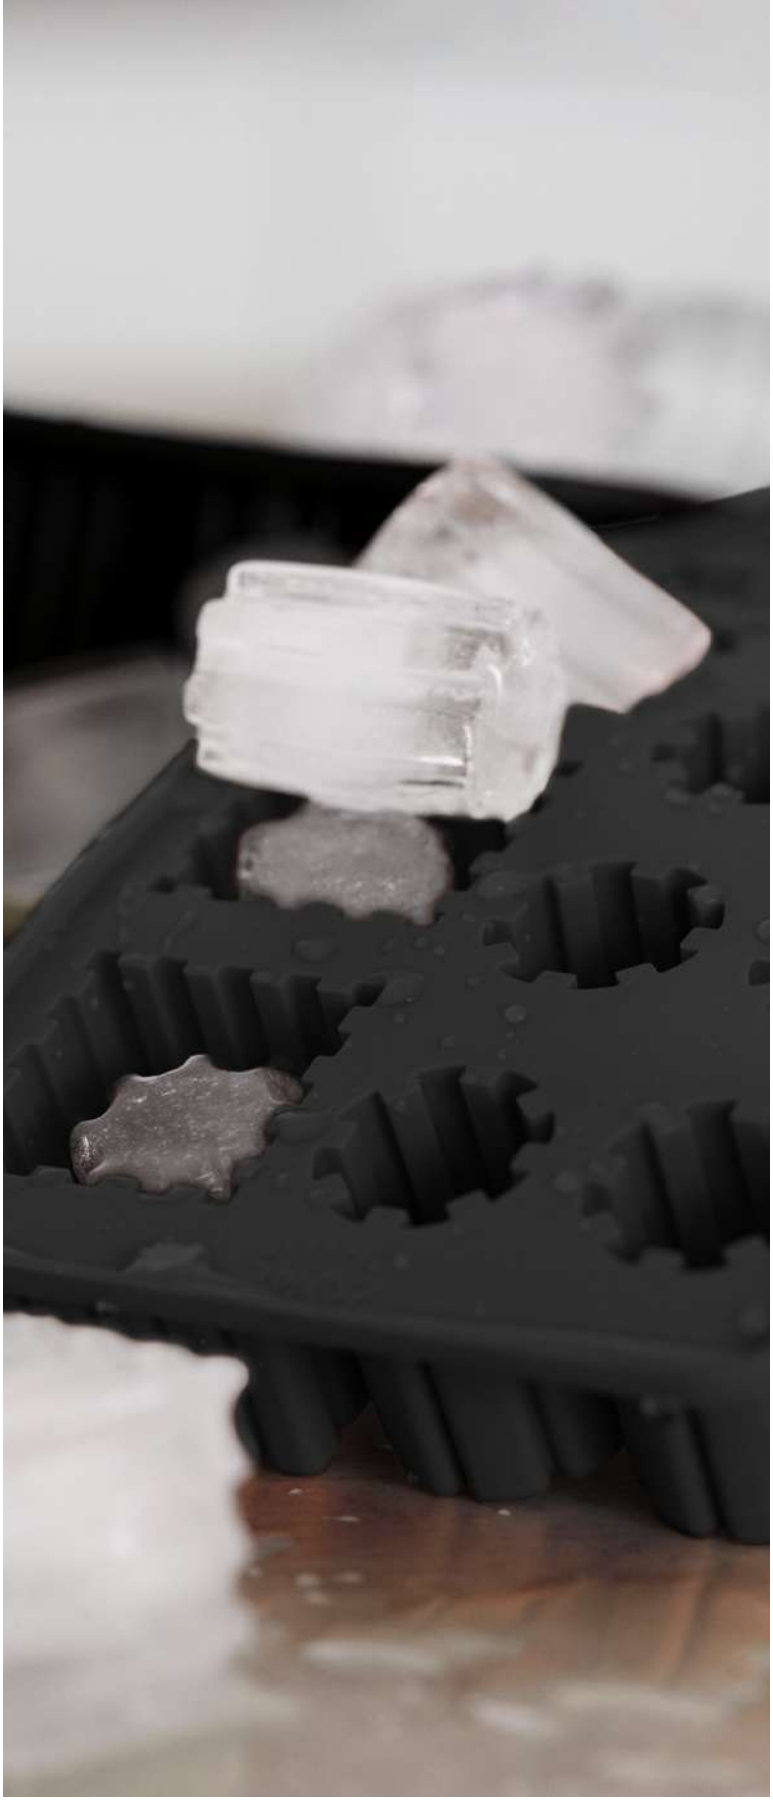

Brunch in style

The four egg cups in a rack from SINGLES can be taken to the table with just one hand. And the curved base will catch both salt and eggshells – and your guests’ attention. Letting you brunch in style – perhaps in the company of good friends ... and your loved one.

Soft with an edge

The kitchen roll is practical and indispensable. It must be within easy reach and it must be easy to tear off a piece of paper. It should preferably not stand and let the paper wind off the roll on its own. That’s the reason why Zone’s kitchen roll holder has a bit of extra edge. Quite literally! While the softly rounded metal base is the epitome of elegance and discretion, it is also functional and effective. It helps keep the paper on the kitchen roll and commands a firm and convenient place on the table.

“I have room for every-one - small and large, short and long...”

SINGLES Knife Block

That’s seriously cool design!

Now you can impress your friends with drinks that are not only beautifully chilled but also irresistibly beautiful. The special shape gives the ice cubes a stylish art deco look to add slick appeal to drinks. The tray is made of silicone, so the ice cubes slide out easily. The discreet edge enables safe stacking of several trays in the freezer. A cool gift idea for the cocktail con-noisseur, the bon viveur and anyone else who loves cool refreshments.

Totally flexible and now in new hue

No one is too big, too small, too wide, too dull or too sharp for the SINGLES knife block. The flexible insert accommodates all sizes and shapes of knives.

When you love what you do

good things keep on coming

Zone Denmark.
Award-winning passion.

VE2

The collaboration between VE2 and Zone Denmark is based on shared enthusiasm and great chemistry. And of course on VE2's ability to design beautiful and functional products perfectly suited to the users.

Hugo Dines Schmidt and Morten Lauritzen have a knack for encouraging the whole team to come up with ideas, then getting to the core and finding the final solution together. That's why Zone Denmark has celebrated many of its greatest successes with VE2.

NEU STUDIO

The woman behind Neu Studio is industrial designer Tilde Nygaard. With her presence and critical professionalism, she creates simple and feminine designs together with Zone Denmark – including the award-winning spa range INU.

Tilde's inspiration for her colour combinations are nature's leaves and stones and the weather. She lingers on the details of her designs until the result has both aesthetic and functional value.

MAVRO//LEFÈVRE

With a master's degree in Innovation Design, designer Sofie Lefèvre has all the skills she needs. But her ideas take flight in an open and friendly dialogue with Zone Denmark, and the journey from idea to action is never long.

The result is simple but unconventional designs that often contain built-in visual or functional surprises based on the way we use products.

Details that give a great user experience and put a smile on your lips.

DESIGNSTUDIO HANS THYGE & CO

Hans Thyge has a theatrical background and a special flair for visual storytelling, which is evident in the many designs created in his studio. An individual design must work not only usefully but also aesthetically. Shape, colour, texture and tactility should combine into a user experience every time.

Hans Thyge & Co was established in 1990 and today consists of a handful of dedicated designers who collaborate closely. Their core values are decency and openness, and the results speak for themselves: relevant everyday designs that you'll enjoy having in your life.

MENCKE & VAGNBY

Many of artist Karina Mencke and designer Marcus Vagnby's ideas are born in their own home. If an object isn't quite working, they seize the opportunity to create a new and better version.

In their work process, they have a special ability to combine form and function in new and creative ways.
One example is the "Bird" wine stopper, where they've coaxed an ingenious function out of the figurative design.

THOMAS DUDZINSKI DESIGN

Thomas Dudzinski takes inspiration from everything he senses. He's always scanning his surroundings subconsciously, always getting a steady stream of ideas – and some of them take shape in collaboration with Zone Denmark.

The challenge is to pick out and develop the right ideas, which can turn into the stringent minimalist lines that characterise his designs. Designs that challenge materials, products and people's behaviour – in all their simplicity.

Crafted with vision.

Guided by passion.

SOCIAL MEDIA

We’d love to meet you and share our Zone stories with you.

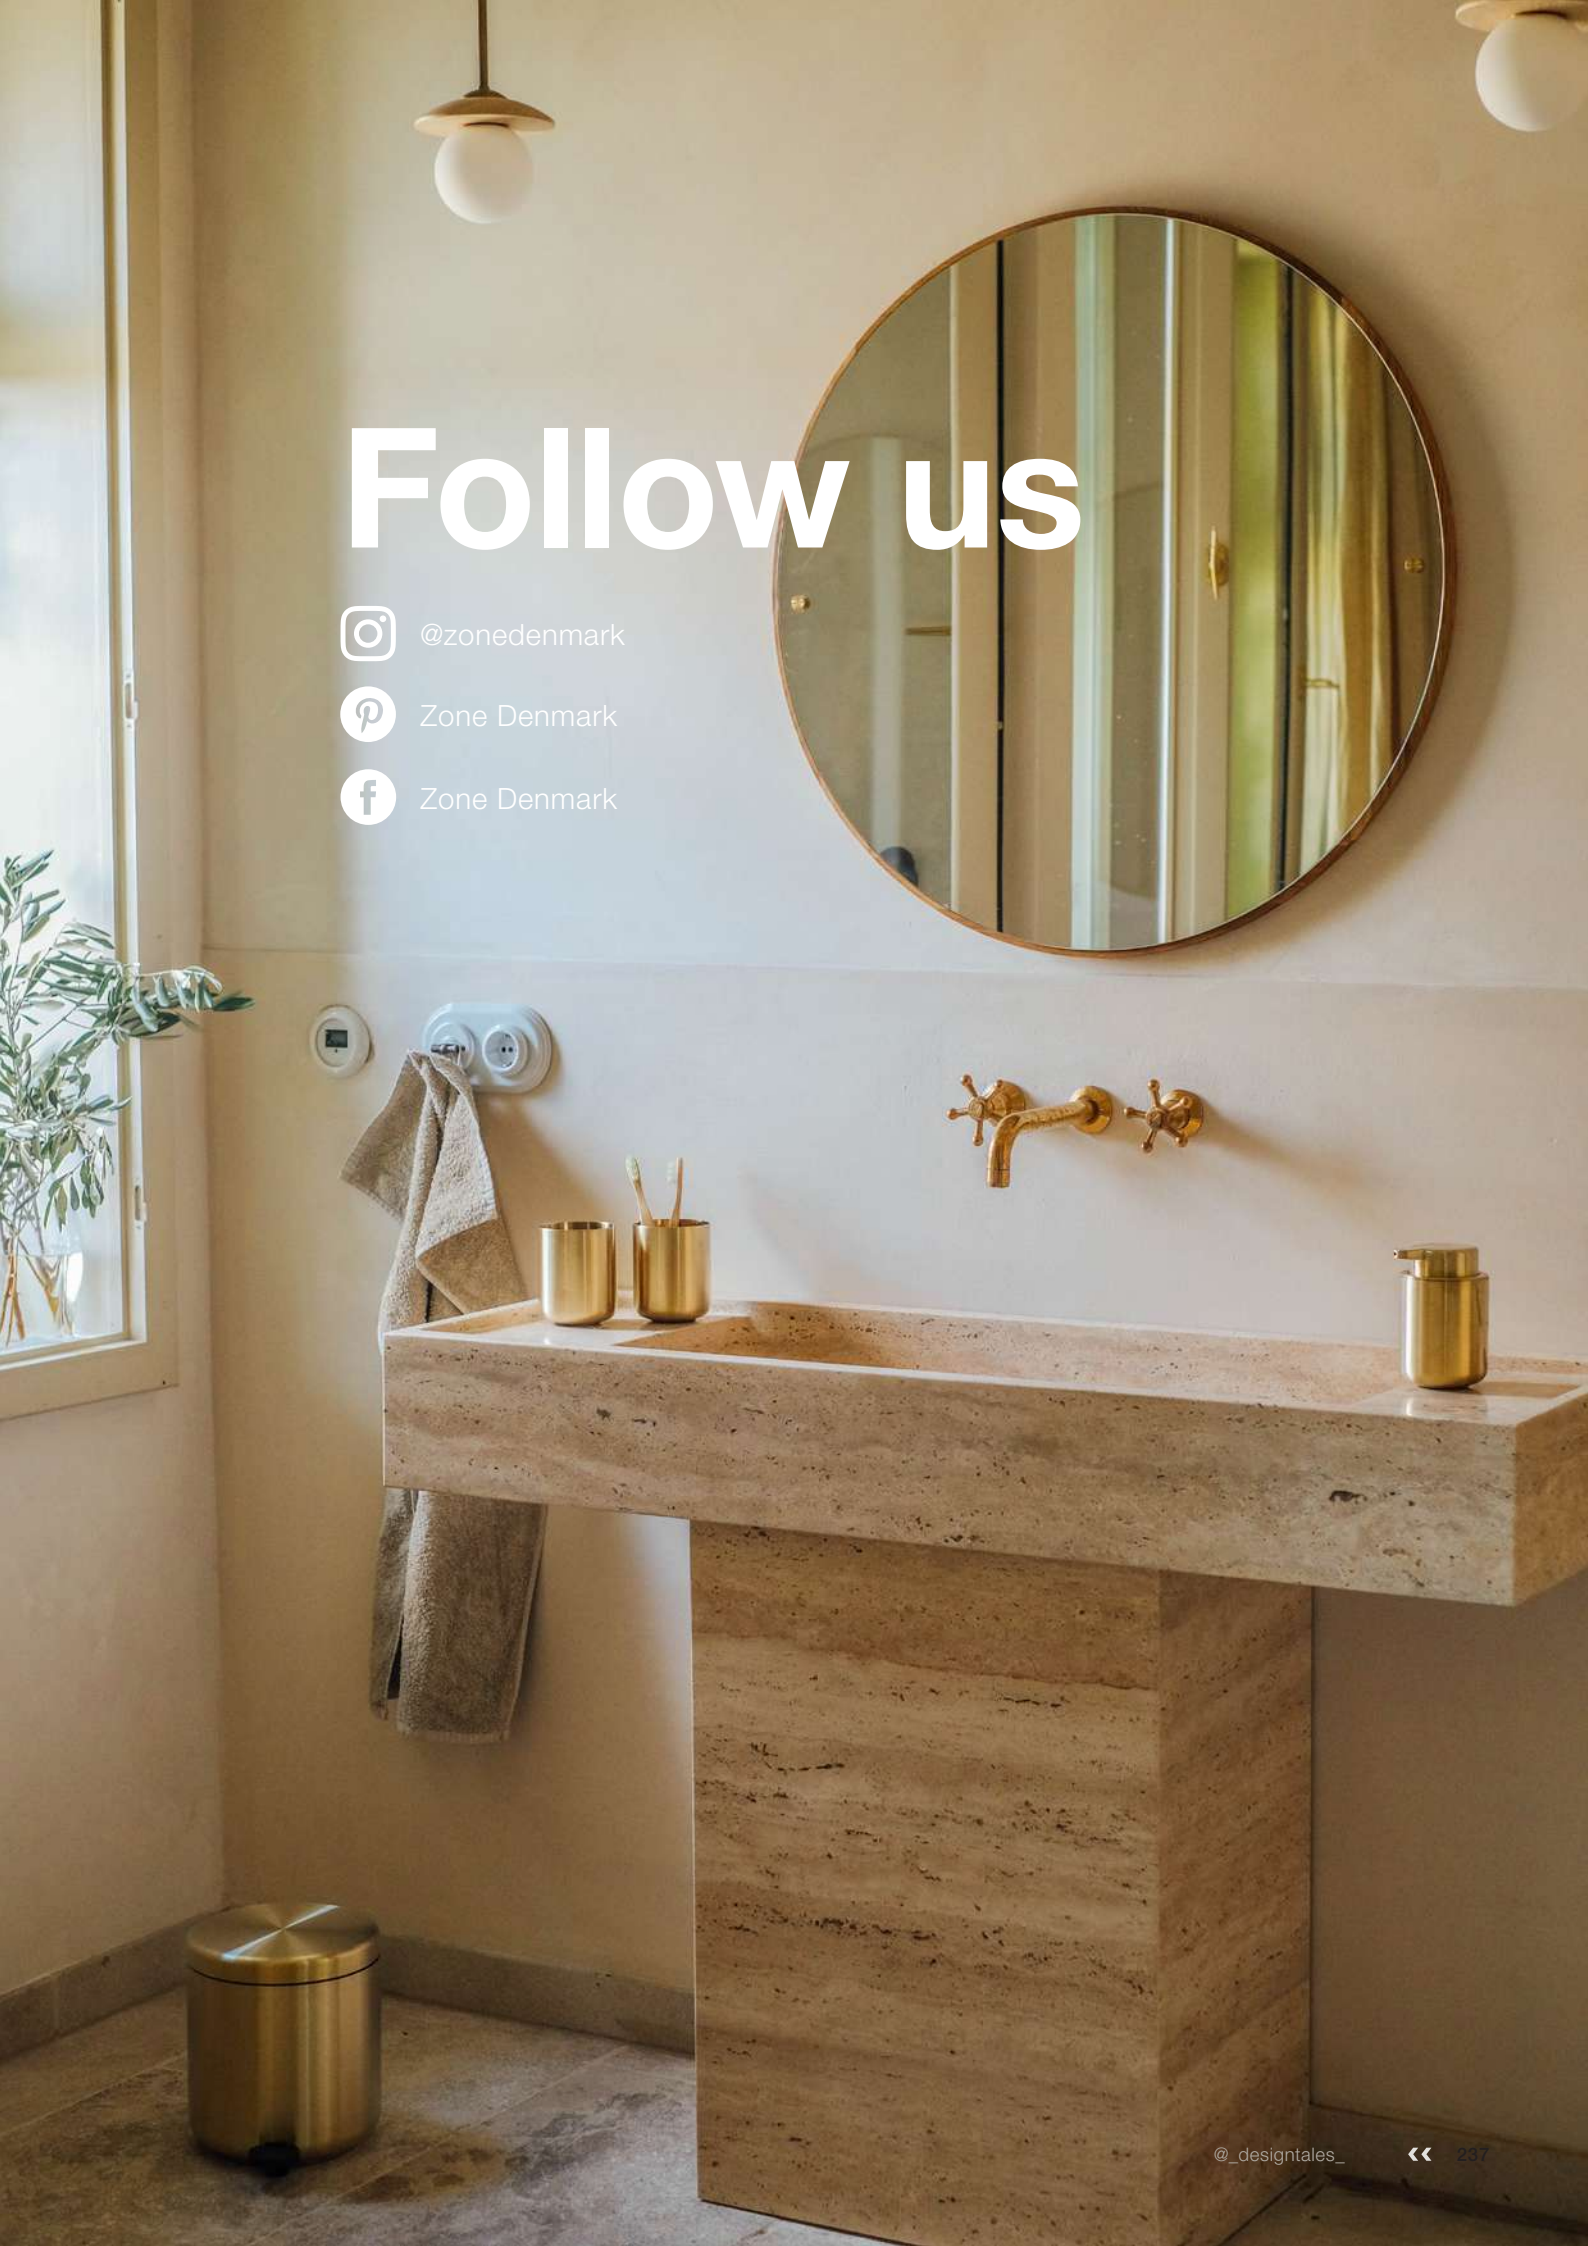

That’s why we unfold our creative universe on Instagram, Facebook and Pinterest where we share news, creative launches and collaborations with a range of Danish and international influencers.

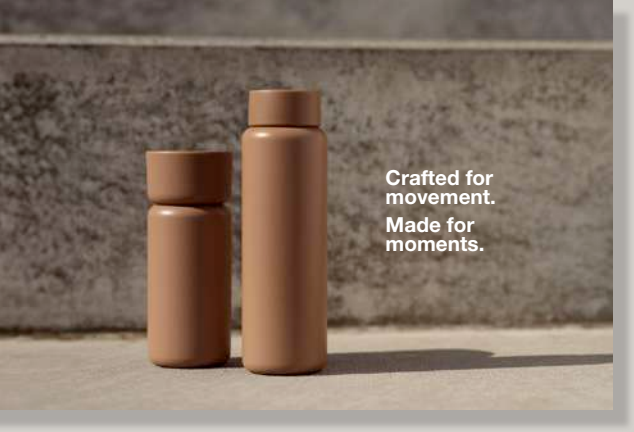

Come see what is going on in our universe, what inspires us and what we are made of.

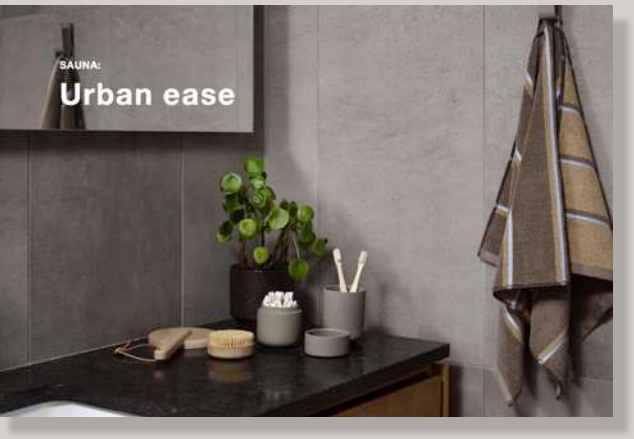

We hope to see you @zonedenmark.

Crash-tested
cool convenience

A ray of sunshine on the shelf. Fit for purpose

First, the hard facts: All Zone packaging has been crash-tested and protects its valuable contents against the rough and tumble of storage and shipping.

Now for the cool details: The boxes on the shelf, on the counter or in the display help to sell themselves. Try turning the boxes round and putting them together in pairs to see the entire product family, even if everything is boxed up. Convenient and space-saving.

We'll put a smile on your face

The SINGLES series aims to be the smiling experience of the category. We initiate dialogue using small conversational texts, in short sentences, with personality, pace and digital appeal. Product features/advantages are worked cleverly into the texts – without overselling or getting lost in details.

The products will quite literally speak directly to the customer, when she opens the box and is invited into the SINGLES universe by a small statement card.

We care

Our footprint – our responsibility

At Zone Denmark, it's not only the design that must be well thought out – responsibility must be as well. That's why we work purposefully to minimise our environmental footprint – without compromising on function, aesthetics or quality.

When a design works best in plastic, we prioritise monoplastic solutions – using one type of plastic when possible. Designing with monomaterials simplifies disassembly and sorting, while improving compatibility with existing recycling systems, helping to support high-quality recycling. Our products are designed to be taken apart and sorted correctly, and we primarily use ABS and PP – durable plastics with well-established recycling potential that remain beautiful and functional year after year. But materials are only the beginning.

We believe that responsible choices begin already in the design process. Our products should not only be beautiful – they should last. And when a design stays in the home and brings joy for many years, it has been created with care for both form and longevity.

We have exciting new materials in sight, but we do not introduce new materials until we have guarantees of both traceability and recyclability. Good things take time – and we take that time. Because it has to be done properly.

Green tips – yes please!

We believe in dialogue and shared responsibility. If you come across an interesting material or have an idea that can help us develop in a more responsible direction, write to us at info@zonedenmark.dk. We're listening!

Packaging with care

Our gift boxes are made of FSC®-certified cardboard, and we print with plant-based inks. This makes the packaging easier to recycle and we stopped using plastic bags in our packaging a long time ago.

@ZoneDenmark

The Forest Stewardship Council™ (FSC™) is a global, not-for-profit organization dedicated to the promotion of responsible forest management worldwide. FSC™ defines standards based on agreed principles for responsible forest stewardship that are supported by environmental, social, and economic stakeholders. To learn more, visit www.fsc.org. By choosing a FSC™-certified product, you are supporting responsible management of the world's forests.

Many of Zone Denmark's products in this catalogue are made from FSC™-certified wood as well as FSC™-certified paper and other controlled material. You can easily find them by looking for the small FSC™ label by the product.

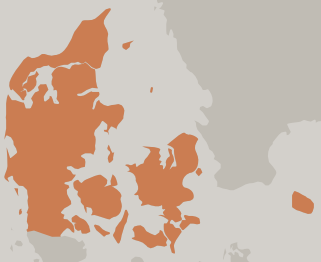

Look for our FSC™-certified products.

ZONE DENMARK

Zone Denmark makes a statement that leaves you in no doubt. We interpret evolving trends by rethinking beauty and functionality for everyone who shares our belief in a profoundly positive life. Expressed in an honest and colourful way, our designs challenge convention, inspire curiosity and embrace exquisite materials. We've won several international design awards with our team of innovative Danish designers, which is great.

But it's our design-loving friends around the world that make it all worthwhile!

Form. Function. Emotions.
